EXPLANATORY STATEMENT

As per the amendment issued by the Central Electricity Authority (Technical Standards for Connectivity to the Grid) (Amendment) Regulations, 2019, consumers of 33KV and above have to maintain a power factor not below 0.95, for better voltage regulation and grid stability and hence, it is found expedient and necessary to amend clause (iii) of sub-regulation (1) of Regulation 4 of Supply code suitably.

2. The minimum charges applicable to LT consumers are in effect the fixed charges specified in the Tariff Order by the Commission from time to time and hence for the purpose of clarity, it is necessary to amend the Regulation 6 of Supply code.

3. The proposed amendments seek to give effect to the said proposals.
