THE INDIAN EXPRESS, WEDNESDAY, APRIL 28, 2021

3 GUJARAT

In April, Covid test positivity rate peaked to 16% in Ahmedabad city

ICMR guidelines, recommendations of a Central team to maintain TPR of less than 5% 'ignored'

RITU SHARMA & SOHINI GHOSH
AHMEDABAD, APRIL 27

THE TEST positivity rate (TPR) has been spiking above 22 per cent in Ahmedabad city since March last year, data accessed and analysed by The Indian Express has found. This is despite the Indian Council of Medical Research's (ICMR) direction to maintain TPR - percentage of tested people turning out to be positive for Covid-19 infection - below five per cent by testing, tracking and treating, as well as the proven strategy to control the transmission of the disease.

The monthly TPR in the city, analysis of testing data maintained by AMC shows, had never dipped below five per cent between March 2020 and January this year. And the rate was the highest in June and July last year - above 22 and 21 per cent respectively.

Daily TPR for April this year, when the city witnessed a sharp surge in infection cases, showed a peak touching almost 16 per cent on April 26. While the TPR has been recorded above five per cent since April 9, the number has been increasing by about two percentage points per day since April 16 when it was reported at 9.9 per cent and reached nearly 16 per cent just 10 days later.

Of the total 20,445 Covid-19 tests - both RT-PCR and RAT - conducted across Ahmedabad city, 1,295 people had turned positive on April 9. This jumped to 2,631 positive cases on April 15 when 23,177 RT-PCR and RATs were conducted in the city.

DAY-WISE TEST POSITIVITY RATE

Percentage of total new Covid-19 cases daily divided by total daily samples tested in AMC areas

Data: As submitted by the state government in an affidavit dated April 26 to Gujarat High Court

On Tuesday, Ahmedabad city had 48,072 active cases. It had added 5,619 fresh cases till late Monday. "The positivity rate for Ahmedabad city is much higher than what is being shown in the government data. The daily hospitalisation rate is merely one of the reflections of this," Dr Mukesh Maheshwari, co-ordinator Indian Medical Association (IMA) Gujarat branch said. Dr Maheshwari was also the vice-president of Ahmedabad Association of Pathology and Microbiology for two years before it was dissolved into Gujarat Association of Pathologists and Microbiologists.

Recommendations 'overlooked'

A letter to Gujarat Chief Secretary Anil Mukim, dated March 20, 2021, by the Secretary Department of Health and Family Welfare, Gail Rajesh Bhushan, following a visit of high-level multi-disciplinary central government team to Ahmedabad Municipal Corporation and Vadodra Municipal Corporation areas had recommended the state become an infection testing (as per ICMR guidance) and to couple with a low confirmation percentage of less than 5 per cent by imposing severe restrictions.

In a separate communication, dated March 19, Bhushan had informed Gujarat Chief Secretary Anil Mukim: "The state needs to ensure that an increase in testing (as per ICMR guidance) should be coupled with a low confirmation percentage of less than five per cent. Further, maintaining the ratio of RT-PCR vs-vis (rapid) antigen test to 70:30 is the key here, the proportion of RT-PCR tests need to be significantly increased."

The central government team, after assessing the ground situation in the cities of Ahmedabad

The city has 48,072 active cases Tuesday. Anil Bhushan

and Vadodra, had also briefed Gujarat Principal Secretary (Health) Jayant Kavi and Health Commissioner Jai Prakash Shrivastava on their observations.

In a letter to Gujarat Chief Secretary Anil Mukim, dated March 20, Bhushan had recommended "The state should aim at having test positivity rate below five per cent in order to restrict daily hospitalisation and number of tests. The specifically referred to the districts of Ahmedabad, Surat, Vadodra and Rajkot as 'major hotspots of concern' where the state's case load was as high as 77 per cent. Ninety-seven per cent of deaths reported from these four districts. The communication also stressed on maintaining at least 70:30 RT-PCR tests.

An ICMR directive for 70:30 ratio of RT-PCR and RATs also has not been maintained in Ahmedabad city, despite repeated communication from the Union health ministry. As per the state government's own data, on April

10 the city conducted a total of 25,472 tests, of which only 8,797 (or 34.5 per cent) were RT-PCR and the remaining 16,675 were RAT. Just a day ago, the city had recorded 9,303 RT-PCR tests.

Only on two days April 16 and 17, the city maintained an RT-PCR test ratio of 59 per cent. Despite repeated warnings, the RT-PCR ratio maintained by AMC remained around 52 per cent on April 23.

TPR in state above 9%

The daily TPR in Gujarat has been on the rise. While on April 22 the TPR stood at around seven per cent, on April 23, when the state reported 14,296 new cases and tested 168 lakh samples, the overall daily TPR stood at 8.5 per cent. On April 26, when the state reported 14,340 cases and tested 159 lakh samples, the TPR stood at over nine per cent. The state's share of RT-PCR tests has remained less than 40 per cent of the total 160 lakh odd tests conducted daily.

Man scolded for being unemployed, strangles father to death; held

EXPRESS NEWS SERVICE
AHMEDABAD, APRIL 27

A 22-YEAR-OLD man was arrested in Ahmedabad's Meghannagar area Tuesday for allegedly strangling his 65-year-old bed-ridden father to death, police said.

According to the police, Anil Patel, a resident of Shanti Nagar society in Meghannagar, strangled his father (65) to death allegedly in a fit of rage after the latter chided him for being unemployed.

A police complaint submitted by Lakshman's elder son Ajay said around 9 pm on Sunday, Lakshman had scolded Anil for not contributing to the family's earnings. The next morning, the complainant said, Lakshman was found unconscious and he was declared dead when the family rushed him to a hospital.

Apost-mortem later revealed the cause of death to be asphyxiation due to pressure on neck, police said. "After the post-mortem report came Monday evening, we started questioning the family members who told us that the father had a fight with his youngest son, Anil, during investigation. Anil told us that around 12.30 am on Monday night, when he was sleeping on the floor, his father allegedly hit him by throwing a blunt object at his face and scolding him for being unemployed. Enraged, Anil strangled his father to death. He has been arrested today," an investigating officer said.

Anil has been booked under IPC 302 for murder, the police officer added.

Covid-positive trader breaks home quarantine, do social service; booked

EXPRESS NEWS SERVICE
SURAT, APRIL 27

A CASE was filed against a diamond trader, who had been in home quarantine after testing positive for Covid-19 but was found doing social work at a Covid care centre at Pandar Sana Wadi.

The trader, who had been in home quarantine after testing positive for Covid-19 but was found doing social work at a Covid care centre at Pandar Sana Wadi in Surat.

The Surat Municipal Corporation (SMC) health department has kept 44,310 people in home isolation and has been keeping a tab on them through mobile tracers as well as by conducting surprise checks at their homes.

During one such checks by Katangam, the 55-year-old diamond trader was found missing from his residence at Kirtana Residential Society at Aulha Talavdi in Katangam on Monday evening.

The trader tested positive for Covid-19 on April 20 along with his wife and sister. However, when officials reached their residence, he was not present at home and his wife and sister did not reveal details to the team.

The SMC officials then met

the residential society president who informed them that the diamond trader has been doing social work at a Covid care centre at Pandar Sana Wadi.

The trader, who had been in home quarantine after testing positive for Covid-19 but was found doing social work at a Covid care centre at Pandar Sana Wadi in Surat.

The trader, who had been in home quarantine after testing positive for Covid-19 but was found doing social work at a Covid care centre at Pandar Sana Wadi in Surat.

On Monday, 1,452 Covid patients were admitted to private and government hospitals in Surat city that reported 23 deaths. With the recovery rate of 77.41 per cent, 1,079 patients were discharged from government and private hospitals on Monday.

CM inaugurates 250-bed Covid hospital at Hazira steel plant

EXPRESS NEWS SERVICE
SURAT, APRIL 27

GUJARAT Chief Minister Vijay Rupani on Tuesday virtually inaugurated a 250-bed Covid hospital set up by Aceemul and Nippon steel (AM/NS) in their plant at Hazira in Surat.

Inaugurating the facility via video-conference, Rupani said, "The state government has increased the number of oxygen beds for Covid patients to 92,000 from 41,000. In the present situation, it is necessary that the hospitals should have an oxygen supply line. The company has set up the hospital near an oxygen plant. We appreciate and welcome the step taken by the AM/NS."

The company has also been supplying 185 MT liquid oxygen to various hospitals in the state, for which it has partnered with INOX air liquid products. The firm's India CEO Dilip Gannan said that the hospital's capacity will be increased to 1,000 beds soon. Gannan said, "Our company is always ready to support the state and central governments. Our Hazira plant is a gas-based plant and we cannot transport this oxygen... So we set up a temporary hospital nearby the steel plant where there will be sufficient supply of oxygen."

Addressing the function virtually from Kazaikistan, Aceemul executive chairman Laxmi Mittal said, "Prime Minister Narendra Modi had called a meeting of industrialists and sought help in the fight against coronavirus. We are committed to work shoulder-to-shoulder with the state government and corona warriors."

Surat district development officer Hitesh Koya said, "We have deployed three medical officers, six nurses, one store keeper and one lab technician at the hospital. Depending on the number of patients, we will increase the staff strength."

AM/NS has been supplying 185 MT oxygen to various hospitals in the state
