

11. The Status of RPO Compliance during FY 2019-20 is tabulated below:

Compliance Year	Consumption (Actual)	Total RPO Obligation for the year		Actual Purchase of Electricity from RE resources		Actual Purchase of RECs from PX		Actual Total RE Procurement	
		Non-Solar	Solar	Non-Solar	Solar	Non-Solar	Solar	Non-Solar	Solar
	MUs	MUs	MUs	MUs	MUs	MUs	MUs	MUs	MUs
FY 2019-20	19.991	1.759	1.099	0.000	0.134	0.000	0.000	0.000	0.134

12. From the above table, it is observed that the RPO quantum is quite low and no generator has agreed for supply of such quantum at competitive rate. After exercising commercial prudence, it was decided to purchase RECs from Power Exchange but due to less inventory and vivid demand in market, the RECs were cleared at Forbearance Price.

13. The Petitioner submits that it had made sincere efforts to source RE power and purchase RECs from Power Exchange but was unsuccessful during FY 2019-20 due to supply constraints of both RE power and RECs. Purchase of RECs at Forbearance Price would increase the financial burden of the petitioner and consequently would result in increase of cost of supply which will indeed incur burden to Consumers.

14. As per the GERC Principal Regulations on Procurement of Energy from Renewable Sources-2010, the petitioner requests Hon'ble Commission to kindly revise the RPO target for compliance in FY 2019-20 due to difficulty in transition from a UGVCL Consumer to power procurement as a distribution licensee. The request is being prayed in accordance with the clause 4.2 of the principal RPO regulations. The excerpt from the clauses reads as follows:

*"4.2 The Commission may, suo-motu or at the request of a licensee, revise the percentage targets for a year as per clause 4.1 of these Regulations keeping in view supply constraints or other factors beyond the control of the licensee."*

15. The RPO regulations confers the power to Hon'ble Commission for revising the RPO target based on the request of the licensee on account of supply constraints or due to other factors beyond the control of the licensee.

16 Subsequently, keeping in view of the above mentioned points the petitioner humbly requests the Hon'ble Commission to kindly revise the RPO targets and exempt us from RPO Compliance of FY 2019-20 due to difficulty in transition from a consumer to distribution licensee and considering the factors of supply constraint for compact load.

## Prayer

The Petitioner humbly prays the Hon'ble Commission:

- a. To admit the present petition for further necessary process.
- b. To revise the RPO targets and exempt the Petitioner for RPO Compliance during FY 2019-20.
- c. To allow additions/ alterations/ changes modifications to the application at a future date.
- d. Allow any other relief, order or direction, which the Hon'ble Commission deems fit to be issued.
- e. Condone any inadvertent omissions/errors/shortcomings and permit the Petitioner to add/change/modify/alter this filing and make further submissions as may be required at a future date.
- f. To afford the reasonable opportunity of personal hearing to the Petitioner before passing any orders in the matter.
- g. To grant any relief/s as it deems fit and appropriate under the circumstances of the case and in the interest of justice.

Declaration that the subject matter of the Petition has not been raised by the Petitioner before any other competent forum, and that no other competent forum is currently seized of the matter or has passed any orders in relation thereto.
