INVITATION FOR BIDS (IFB)

Objective of Project:

The demand of electricity has increased a lot in the last two decades and even after putting the best efforts to increase the generation of electricity, it has been realized that the ever growing demand cannot be met by conventional energy sources only. One of the ways of bridging this gap in energy demand and supply is by implementing Renewable Energy Power systems in rural/ semi urban/ urban areas, which will assist the utility grid in providing independent power to a dedicated load. This will reduce the load on the conventional power systems and results in saving of precious fossil fuels / energy resources. The application of Stand Alone Solar PV System finds more relevance in rural, semi urban areas where the load is very small and also the reliability and availability of conventional power is poor. There are many advantages of a Stand Alone PV system some include low maintenance, no waste or by-products, and easy expansion by using multiple solar panels and batteries. The transmission & distribution loss of utility grid is very high in rural areas where load is very small. Also, the community lighting infrastructure is very poor in rural areas of country.

REC Limited is willing to execute a CSR project in rural and tribal areas of Nashik District, Maharashtra for development of area through providing Solar Street Lights. Taking all these factors into account, REIL proposes for procurement, installation – commissioning of 1650 nos. of Solar Street Lights in rural and tribal areas of Nashik District of Maharashtra State under CSR activity of REC Limited through REC Foundation, which will help in reducing the dependency on grid and will provide nightlife security and extended night life in the rural areas.

Rajasthan Electronics & Instruments Limited (REIL) on behalf of REC Foundation (CSR Arm of REC Ltd.) invites sealed bids (Technical & Financial) from competent agencies who have experience and proven track record of similar nature of work as described in PART - VI : Scope of Work & Technical Specification .

Interested parties may view and download the tender document containing the detailed terms & Conditions, free of cost from the website <http://eprocure.gov.in/> or <http://www.reiljp.com>.

3.1.2 INSTRUCTIONS TO BIDDERS FOR E-TENDERING

3.1.2.1 General

The Special Instructions (for e-Tendering) supplement Section 3.1.2 'Instruction to Bidders', as given in this Notice Inviting Tender (NIT) Document. Submission of Online Bids is mandatory for this Tender. Bidder must be uploaded all the documents related to tender.

E-Tendering is a new methodology for conducting Public Procurement in a transparent and secured manner. Now, the Government of India has made e-tendering mandatory. Suppliers / Contractors will be the biggest beneficiaries of this new system of procurement. For conducting electronic tendering, REIL has decided to use the portal <https://www.eprocure.gov.in> through CPP portal. This portal is based on the world's most 'secure' and 'user friendly' software.

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 10 of 79	Signature of Bidder
--	--	---------------	---------------------

3.1.2.2 Specifically for Supplier (Bidding) organizations, the following KEY INSTRUCTIONS for BIDDERS must be assiduously adhered to:

- (i) Obtain individual Digital Signing Certificate (DSC or DC) of class II well in advance of your tender submission deadline on CPP Portal.
- (ii) Register your organization on CPP Portal well in advance of the important deadlines for your first tender viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of users, assigning roles to them, etc.
- (iii) Get your organization's concerned executives trained on CPP Portal well in advance for tender submission.
- (iv) Submit your bids well in advance of tender submission deadline on CPP Portal (There could be last minute problems due to internet timeout, breakdown, etc.). If bidders fail to upload the bid on CPP Portal, REIL will not be responsible for the same.
- (v) The Bidder must upload all the documents with self-attested by Authorized Person, related to NIT during Online Bid-Submission.

3.1.2.3 Other Requirements:

(i) Minimum Requirements at Bidder's End

- a. A Computer System with at least 1 GB RAM and Internet connectivity.
- b. Internet connectivity with at least 2 Mbps speed.
- c. Internet Explorer 7.0 or Mozilla Firefox or above.
- d. Java Run Time Engine (JRE- 1.7.0) or higher
- e. Digital Certificate(s)

(ii) Any Further support and assistance:

REIL Helpdesk	
Telephone/ Mobile	Mobile Numbers: +91- 7727011722
Email-ID	Kamlesh.singh@reil.co.in Jitendra.kumar@reil.co.in

--	---	---------------	---------------------

1. BID EVALUATION

The evaluation process comprises the following four steps:

- Step I: Responsiveness check of Techno Commercial Bid
- Step II: Evaluation of Bidder’s fulfillment of Eligibility Criteria
- Step III: Evaluation of Price Bid
- Step IV: Successful Bidders(s) selection

1.1. RESPONSIVENES CHECK OF TECHNO-COMMERCIAL BID

The Techno Commercial Bid submitted by Bidders shall be scrutinized to establish responsiveness to the requirements laid down in the NIT subject to Clause 3.2.1, Clause 3.2.2, and Clause 3.2.3 of Part - II. Any of the following may cause the Bid to be considered “Non-responsive”, at the sole discretion of REIL:

- a. Bids that are incomplete, i.e. not accompanied by any of the applicable formats inter alia covering letter, power of attorney supported by a board resolution, Bid Security etc.;
- b. Bid not signed by authorized signatory and /or stamped in the manner indicated in this NIT;
- c. Material inconsistencies in the information /documents submitted by the Bidder, affecting the Eligibility Criteria;
- d. Information not submitted in the formats specified in this NIT;
- e. Bid being conditional in nature;
- f. Bid not received by the Bid Deadline;
- g. Bid having Conflict of Interest;
- h. More than one Member of a Bidding Company using the credentials of the same Parent Company;
- i. Bidder delaying in submission of additional information or clarifications sought by REIL as applicable;
- j. Bidder makes any misrepresentation.

Each Bid shall be checked for compliance with the submission requirements set forth in this NIT before the evaluation of Bidder’s fulfillment of Eligibility Criteria is taken up. Clause 3.2 of Part - II shall be used to check whether each Bidder meets the stipulated requirement.

1.2 PRELIMINARY EXAMINATION

1.2.1 REIL will examine the Bids to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed and stamped and whether the Bids are otherwise in order.

1.2.2 If there is a discrepancy between words and figures, the amount written in words will prevail.

1.3 EVALUATION OF BIDDER’S FULFILMENT OF ELIGIBILITY CRITERIA

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 20 of 79	Signature of Bidder
--	--	---------------	---------------------

- 1.3.1 Evaluation of Bidder’s Eligibility will be carried out based on the information furnished by the Bidder as per the prescribed Formats and related documentary evidence in support of meeting the Eligibility Criteria as specified in Clause 3.2 part-II, ITB. Non-availability of information and related documentary evidence for the satisfaction of Eligibility Criteria may cause the Bid non-responsive.
- 1.3.2 The bidders who are qualify the eligibility criteria known as technically qualified bidder for opening of price bid.

1.4 EVALUATION OF PRICE BID

- 1.4.1 Price Bid of the Technical Qualified Bidders shall be opened online through CPP Portal in presence of the representatives of such Qualified Bidders, who wish to be present, on a date as may be intimated by REIL to the Bidders through REIL website or Email. The evaluation of Price Bid shall be carried out based on the information furnished in Financial Bid (Price Bid). The Price Bid submitted by the Bidders shall be scrutinized to ensure conformity with the NIT. Any Bid not meeting any of the requirements of this NIT may cause the Bid to be considered “Non-responsive” at the sole decision of the REIL.
- 1.4.2 Price bids shall be evaluated on total basic Price quoted by the bidder (i.e Total basic price of A and B).

1.5 SUCCESSFUL BIDDER(S) SELECTION

- 1.5.1 Bids qualifying in Clause 1.4 shall only be evaluated in this stage.
- 1.5.2 Price quoted in all Price Bids of Qualified Bidders shall be ranked from the lowest to the highest.
- 1.5.3 **ASSESSMENT OF SUCCESSFUL BIDDER**
 - 1.5.3.1 Based on the price bid quoted by the bidders, REIL shall arrange the bids in the ascending order i.e. L-1, L-2 and so on (L-1 being the lowest quoted value) .
 - 1.5.3.2 Lowest bidder will be declared as the successful bidder. REIL on behalf REC FOUNDATION will release of Work Order (WO)/ Letter of Award (LOA) to the successful bidder i.e. L-1 bidder.
- 1.5.4 Successful Bidder shall acknowledge the Work Order (WO)/ Letter of Award (LOA) and return duplicate copy with signature of the authorized signatory of the Successful Bidder to REIL within Fourteen (14) days of issue of Work Order (WO)/ Letter of Award (LOA).
- 1.5.5 If the Successful Bidder, to whom the Work Order (WO)/ Letter of Award (LOA) has been issued does not fulfil any of the conditions specified in Bid document, then REIL reserves the right to annul / cancel the award of the Work Order (WO)/ Letter of Award (LOA) of such Successful Bidder.
- 1.5.6 In the case of annulment/ cancellation of the Work Order (WO)/ Letter of Award (LOA), the next lowest bidder shall be given 14 days time to give their consent to execute the work at L-1 price. Upon receipt of the consent the Work Order (WO)/ Letter of Award (LOA) shall be offered to such bidders else next lowest bidder shall be offered the opportunity.. If no one shows interest in L-1 price, then L-2 price shall be allowed and so on.
- 1.5.7 REIL at its own discretion, has the right to reject any or all the Bids without assigning any reason whatsoever, at its sole discretion

--	---	---------------	---------------------

GENERAL TERMS AND CONDITIONS

1) AMENDMENT

Except as otherwise provided herein, no addition, amendment to or modification of the Contract shall be effective unless it is in writing and signed by and on behalf of both parties.

2) SEVERABLEITY

In the event that any or any part of the terms conditions or provisions contained in the Contract shall be determined invalid, unlawful or unenforceable to any extent such term, condition or provision shall be served from the remaining terms, conditions and provisions that shall continue to be valid and enforceable to the fullest extent permitted by law.

3) CONFIDENTIAL TREATMENT

It is understood and agreed that data, know-how and other such proprietary information that was provided or will be provided by either party, will remain confidential.

4) RELATIONSHIP OF THE PARTIES

REIL relationship with Supplier will be that of a Business Associate, and nothing in this Contract shall be construed to create a relationship, joint venture, partnership.

5) INDEMNITY

REIL and the Supplier will indemnify, defend, and hold harmless each other and its divisions, successors, subsidiaries and affiliates, the assigned of each and their directors, officers, agents and employees from and against all liabilities, claims, losses, and damages of any nature, including, without limitation, all expenses (including attorney's fees), cost, and judgments incident there to REIL and REIL's obligations under this indemnity will survive the expiration, termination, completion or cancellation of this Contract or an order hereunder.

6) FORCE MAJURE

REIL and the Supplier shall not be under any liability to each other or to any other party in any way whatsoever for the destruction, damage, delay or any other matters of the nature arising out of reasons beyond the control of either party, including but not limited to a war, rebellion, civil commotion, strikes, lock-outs and industrial disputes; fire, explosion, earthquake, Act of God, flood, drought, bad weather, Corona Virus, requisitioning or other act or order by any government department, council or other constituted body, and similar other reasons.

If a force majeure situation arises, the Contractor shall notify REIL in writing promptly, not later than 7 (seven) days from the date such situation arises. The Supplier shall notify REIL not later than 3 days of cessation of force majeure conditions. After examining the cases, REIL shall decide and grant suitable additional time for the completion of the work, if required.

7) RESTRICTION ON EMPLOYMENT

Both the parties have agreed that they will not recruit any members of staff of other party directly or indirectly.

8) ARBITRATION

All disputes arising out of this contract and questions relating to its interpretation etc. shall be referred to the contract committee headed by ED/GM (REIL) and if not resolved shall be referred to the sole arbitration of Managing Director, Rajasthan Electronics & Instruments Ltd., for his decision, which shall be final and binding on both parties. The Venue of Arbitration proceedings shall be at Jaipur.

9) RISK AND COST

In the event of failure on the part of the contract in the supply, installation and commissioning of goods and services, which is required in view of the pending orders, REIL shall be entitled to

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 24 of 79	Signature of Bidder
--	--	---------------	---------------------

cancel the remaining order and procure the outstanding quantity through other sources at risk and costs of the supplier.

10) TERMINATION OF CONTRACT:

REIL shall be entitled to terminate this Contract, in the event of any or all or any of the following events, with a written notice of 15 days with due consent of the Contractor:-

- i. has abandoned the Contract.
- ii. has without valid reason failed to supply the goods in respect of the contract or has suspended the progress of supply of equipment.
- iii. Persistently fails to execute the Contract in accordance with the Contract or persistently neglects to carry out its obligations under the Contract without just and proper cause.

11) DURATION OF CONTRACT

This contract shall take effect on the day of release of Work order and shall endure for the period of **4 month** from the date of Work order and further comprehensive O& M for a period of 5 years.

12) PERFORMANCE SECURITY

In case of purchase of items where warranty/ guarantee is required or service contracts, 3 % of contract value of the contract should be asked as performance security from the successful bidder. This performance security may be accepted in the form of Bank Guarantee and should be valid for a period of 60 days beyond the date of completion of all contractual obligations.

13) GOVERNING LAW

This contract and its validity, interpretation and performance will take effect and be governed under the laws of India. Venue in any action in law or equity arising from the terms and conditions of this contract shall be the court of appropriate jurisdiction in Panchkula Haryana (India).

14) PREFERENCE TO MSE

Preference to MSE will be given and procurement from SC/ST and Women Entrepreneurs shall be done as per the government guidelines. Start Ups are exempted from condition of prior turnover and prior experience subject to meeting of quality and technical specifications.

Note: Startup must submit the turnover and prior experience documents whichever he have .

15) INDIGENOUS MANUFACTURER

Indigenous manufacturer shall be given preference for promotion of indigenous products to maximum subject to meeting quality standards and specifications.

16) NO NEAR RELATIVE CLAUSE

The bidder should give a certificate that none of his/her near relative is working in REIL as defined below along with their technical bid as per the attached format-13 . Due to any breach of these conditions by the company or firm or any other person the tender will be cancelled and Bid Security will be forfeited at any stage whenever it is noticed and REIL will not pay any damage to the company or firm or the concerned person. The company or firm or the person will also be debarred for further participation in REIL's Tender. The near relatives for this purpose are defined as:- (a) Members of a Hindu undivided family. (b) They are husband and wife. (c) The one is related to the other in the manner as father, mother, son(s) & Son's wife (daughter in law), Daughter(s) and daughter's husband (son in law), brother(s) and brother's wife, sister(s) and sister's husband (brother in law).

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/ REC-SSLS/2021-22/003	Page 26 of 79	Signature of Bidder
--	---	---------------	---------------------

CONDITIONS OF CONTRACT (SCC)

1. Project description :

Work for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of 1650 Nos. Solar Street Light Systems in rural and tribal areas of Nashik District of Maharashtra on turnkey basis.

2. **Project Site:** Project is spread in three taluka of Nashik District in Maharashtra . The brief detail location of the project is given in the part-II ,ITB of NIT and Annexure-C.

3. Scope of Works:

The detailed scope of works under this contract shall be referred at Section VI: SCOPE OF WORK & TECHNICAL SPECIFICATIONS.

4. Exemptions for MSEs:

4.1 Exemptions for Indian MSEs Bidders / Manufacturers who are registered under NSIC / Udyog Aadhaar Category only are provided as per Govt. Rules.

4.2 If MSEs will participate with non MSEs as a consortium then MSEs exemption is not applicable to MSMEs bidders.i.e For MSEs exemption both the consortium members must be MSEs.

4.3 If any bidder either MSEs bidder or general bidder will awarded the contract and it does not submit the performance bank guarantee as per clause 3.13 of Part – II ITB, it shall be blacklisted from all tenders of REIL/REC FOUNDATION or shall have to pay a penalty equivalent of Bid Security/EMD amount with subsequent interest calculated as 1.25 % per month on Bid Security/ EMD amount from the date of bid submission.

5. Performance Parameters for Acceptance:

After installation & commissioning performance test shall be demonstrated by the contractor for acceptance of the Luminaries.

For single light level:

Minimum 24 Lux when measured at a point 4 meters below the light. The illumination should be uniform without dark bands or abrupt variations, and soothing to the eye. Higher light output will be preferred.

6. Project Time line:

The time line for Completion of the installation & Commissioning of project is **4 Months** from the date of issue of Work order /Letter of Award .

7. Mode of Execution:

The entire work shall be executed on turnkey basis. Any item(s) not included in the NIT but essentially required for completion of the project shall have to be carried out/ supplied without any extra cost. Such works, not listed in the NIT of works but elaborately described to perform or to facilitate particular operation(s) required for completion of the project shall deemed to have been included in the scope of this work and the Contractor shall supply, installed & commission the same without any extra cost.

8. Issue of letter of award (LOA)/Work Order (WO) and Agreement:

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 27 of 79	Signature of Bidder
--	--	---------------	---------------------

The successful Bidder shall be issued letter of award (LOA)/Work Order (WO) by REIL. After the LOA/WO the successful Bidder have to sign the agreement with REIL on behalf of REC Foundation as per their schedule on Rs. 500 (five Hundred only) Stamp paper .

A. Agreement for supply, Installation & Commissioning and Testing.

An agreement shall be done between REIL and successful bidder for the supply, Installation & Commissioning and Testing of Solar Street Lighting Systems for a period as specified in the bid document as per Format-10.

B. Agreement for Compresive O&M :

An agreement shall be done between REIL and successful bidder for compressive Operation & maintenance of Solar Street Lighting Systems for a period 5 years after installation & commisioning as specified in the bid document.

9. Relation with public Authorities:

The Contractor shall comply with all powers and legal orders and directions given from time to time by any local or public authorities and shall pay out of his own money, the fees or charges to which he shall be liable.

10. Permit and Licenses:

The Contractor shall procure at his sole expenses all permits and licenses and pay all charges and fees for lawful execution of the work.

11. Inspection of sites by bidder:

The Bidder is deemed to have visited the sites and familiarized himself of the conditions and restrictions under which the work will be executed.

- The omission of any details shall not absolve the bidder of his prima facie obligation and responsibility under the Contract to carry out and successfully complete the Execution and Maintenance works.
- The Bidder is advised that it is his sole responsibility to ascertain for himself the extent of work that is required to be done in site and to generally obtain his own information on all matters affecting directly or indirectly the execution of the whole works involved in the contract to the complete satisfaction of the Engineer.
- The Bidder shall inspect and examine the site and its surrounding and shall satisfy himself before submitting his tender as to the condition of the poles/brackets and condition of wires (so far as is practicable), the form and nature of the site, the quantities and nature of the work and materials necessary for the completion and maintenance of the works and means of access to the site, the accommodation he may require and in general shall himself obtain all necessary information as to risk, contingencies and other circumstances which may influence or affect his tender.
- The bidder shall be deemed to have satisfied himself before tendering as to the corrections and sufficiency of his tender for the work and of the rates and prices quoted in the schedule of works/items/quantities, or in Bill of Quantities, which rates and prices shall, except as otherwise provided, cover all his obligations under the Contract and all matters and things

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 28 of 79	Signature of Bidder
--	--	---------------	---------------------

necessary for proper completion and comprehensive maintenance of the works. No extra charges consequent on any misunderstanding.

12. Inspection of materials:

The Contractor shall furnish the Engineer in charge every facility and assistance for ascertaining whether or not the work performed is in accordance with the requirements and instructions of the plans and estimates and the specifications. In fact any stage Engineer in charge want to confirm about the specifications, then the contractor shall remove or uncover any portions of the finished work considered necessary for fresh inspection at his own cost. The Engineer in charge official will inspect the manufacturing plant / LED Luminaries etc. at the cost of bidder and the bidder is bound to inspect the material to the Engineer in charge or his representative at plant before dispatching the material.

13. Materials:

The Solar Street lighting System installed in pursuance to this Agreement, will remains the property of REC Foundation / Municipality. All Materials shall be new and as per Technical Specifications as specified in the Tender.

14. Testing:

The Contractor shall be completely responsible for the testing. All tests shall be carried in the presence of Engineer-in-charge or his authorized representative /REIL and approval obtained for the tests. The quality and specifications of material supplied by contract or may be examined through third party inspection or certified as per analysis report of NABL-accredited laboratory, if required at any time on the cost of successful bidder.

15. Basic Price:

The basic price of items shall include supply of material, transportation, loading and unloading charge ,Insurances ,installation & commissioning ,testing etc and all such changes that may be required to be incurred for implementation of Solar Street lighting Systems .

16. Terms of Payment:

16.1 Payment shall be made by REIL on behalf of REC FOUNDATION after verification of the bills raised by contractor as given below.

1. 60 % of the project cost after received of material at site and duly verified by REIL's officer incharge/ representative.
2. 15 % of the project cost after issue of completion certificate by REIL.(i.e. After Installation & commissioning & performance Testing).
3. 10% of the project cost after handing over the project to the concern authority.
4. Balance 15 % of the project cost in 5 equal installment after completion of every year O&M .(i.e. 3 % every years after completion of O&M).

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 29 of 79	Signature of Bidder
--	--	---------------	---------------------

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

Note: 15% of Basic price shall be consider for O&M Price at the time of award of NOA. GST as applicable for O& M will be extra.

16.2 REIL will only release the payment to the contractor after release of payment from REC Foundation .REIL will not be liable for any delay/non payment from REC Foundation.

16.3 The bills of Operation and maintenance will be raised by the contractor after completion of every year of O&M. The full payment will be released to the contractor within 30 days of submission of bill. The penalty amount (LD) if any will be deducted from yearly bills raised by contractor . REIL decision will be final about penalty and both the parties have to accept it.

17. Price Escalation

No Price escalation is allowed. The rate(s) quoted against the work shall remain firm during the entire Contract period. Any change in Forex rate shall not be considered for price variation.

18. Liability and Insurances:

18.1 All the supplies mentioned/ required under this NIT shall be insured till installation & Commissioning . The contractor shall be responsible for loss, damages or depreciation to goods, Equipments & machineries upto delivery at site. The replacement of the effected items shall also be carried out by the contractor to meet the performance of the Solar Street Lighting System with in specified time.

18.2 All insurance related expences shall be borne by Contractor. Goods, Equipments & machineries supplied shall be fully insured against the loss or damage or theft or pilferage or fir accident or combination etc upto delivery at site before dispatch of material.

18.3 Contractor should also provide the insurance coverage to its workmen under Workmen's Compensation Act or similar Rules and Acts as applicable during installation & commissioning and O&M period. REIL/REC Foundation will not be responsible for any loss/damage of workmen & material during overall contract .

18.4 Since the O&M is comprehensive ,contractor shall also be insured the supplied material upto 5 years O&M for any loss,damage,theft etc .

19. Taxes and Duties:

19.1 Proper tax invoices, raised against the different work viz. Supply, installation & commissioning etc must be submitted mentioning the tax component (GST) clearly and separately. All charges including custom duty is the part of basic price .REIL on behalf of REC Foundation will pay GST charges as applicable. Contractor will not allowed to increase basic price. REIL will not pay more than the Total Project Cost as menstioned in price schedule.

19.2 Bidder will quote the price based on the concessional rate or exemptions in the same (as applicable) that can be availed by the bidder on its own.

19.3 The successful bidder shall be responsible for all the income tax, statutory taxes, statutory dues, local levies, Goods & Service tax, etc., to be paid to Government / Statutory bodies / Authorities, etc., for the services rendered by it. There will be no tax liability upon the REIL/REC Foundation whatsoever on any account.

20. Liquidated Damage:

20.1 Liquidated Damage during Supply,installation & Commissioning & Testing :

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 30 of 79	Signature of Bidder
--	--	---------------	---------------------

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

Liquidated damages in the event of delay in affecting the supply and I&C within agreed period, a reduction in the price shall be levied @ 0.50% of the total Work order value per week or part thereof subject to maximum of 3 % of the total Work order value.

20.2 Liquidated Damage during O&M :

Liquidated damages in the event of replacement of the defective/ non-glowing Solar LED lights within 48 hours of its failure coming into knowledge of the Contractor through any means. Penalty for non-fulfillment after 48hours is reckoned as follows.

- A. Penalty Rs. 20 per systems per day beyond 72 hour till 7 Days . Rs. 50 per day after 7 days till the removal of defects.
- B. Penalty in case number of Solar Street Lighting Systems glowing are less than 95% = Rs. 20 per lamp per day.

The above penalty will be detected from yearly bill raised by the contractor subject to maximum of 3% of the total Work order value .

21. Pre Dispatch Inspections:

Pre Dispatch Inspection of critical items such as Luminaries & SPV Modules etc will be done by REIL/REIL's representative. REIL/REIL's representative shall have free access to the supplier's works during testing and final inspection of items as per quality plan. Contractor shall inform the REIL not less than 15 days in advance. All testing arrangements shall be the responsibility of the contractor. REIL reserves the right to inspect the material during manufacturing and/or before dispatch as per specifications and test protocols. Internal inspection report and inspection certificate must accompany the supply.

22. Warranty:

The Solar street light System's equipments and apparatuses, including, but not limited to, SPV Modules, poles, cables, wires, lighting fixtures, Batteries, fittings, , switching devices and timers within the Project Area shall be covered under the standard warranty for the entire period of O&M i.e. 5 years or till the project is handed over to the authority, whichever is more. During this period contractor should replace/ repair the defective parts. The entire expenditure including freight, customs duty, customs clearing charges, GST and local transportation if any for such replacement shall be borne by the contractor.

23. Miscellaneous:

- (i) The successful bidder must have all statutory licenses such as electrical contractor license of supervisor level etc, required for working in the state of Maharashtra . If successful bidder will fail to deposite the certificate / license etc with in 30 days after release of Work Order , then REIL will cancel the Workorder and forfeited the Bid security by REIL.
- (ii) Contractor shall supply all material as per specifications in the NIT and integrate all the supplied material as per requirement of site.
- (iii) Contractor shall supply all new material and not for any refurbished / used material.
- (iv) All requirements of licensing, Govt. permissions or any other statutory clearance from the state/Center shall be the responsibility of contractor.
- (v) In case of discrepancy between GCC Clause and SCC Clause on a particular subject, SCC conditions will prevail.
- (vi) Applicable TDS and Labour Cess shall be deducted from the bill as per rules of the successful bidder. Certificates to the same effect will be issued to the contractor for their official purposes.
- (vii) Successful bidder, on whom work order/ letter of award is placed, is to ensure all safety

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 31 of 79	Signature of Bidder
--	--	---------------	---------------------

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

guidelines, rules and regulations, labour laws etc. Successful bidder shall indemnify concerned EIC for any accident, injury met by its labour, employee or any other person working for him or general public during execution of work and O&M period. Any compensation sought by its labour, employee or any other person working for him or general public either during operation of work order or at any stage later on, shall be paid by successful bidder as per settlement solely. REIL/REC FOUNDATION has no role to play in this matter. In case, any dispute arises out of these conditions, the directions / decisions / settlements by court, the full compensation amount shall be borne by the successful bidder. If the successful bidders do not abide by this condition, concerned EIC reserves the right to pay the aggrieved party directly and the same shall be recovered from the payouts of the successful bidder.

- (viii) All employees / workman engaged by the successful bidder to work on this project shall not have any claim regarding engagement / employment by REIL/REC Foundation sitting the plea that they worked for and on behalf of REIL/REC Foundation. They shall purely be the employees / workman of the contractor only.

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/ REC-SSLS/2021-22/003	Page 33 of 79	Signature of Bidder
--	---	---------------	---------------------

1. Scope of work & Technical Specifications :

A standalone solar photovoltaic street lighting system (SLS) is an outdoor lighting unit used for illuminating a street or an open area. The Solar Street Lighting System consists of solar photovoltaic (SPV) module, a luminaire, storage battery, control electronics, inter-connecting wires/cables, module mounting pole including hardware and battery box. The luminaire is based on White Light Emitting Diode (W-LED), a solid state device which emits light when electric current passes through it. The luminaire is mounted on the pole at a suitable angle to maximize illumination on the ground. The PV module is placed at the top of the pole at an angle facing south so that it receives solar radiation throughout the day, without any shadow falling on it. A battery is placed in a box attached to the pole.

Electricity generated by the PV module charges the battery during the day time which powers the luminaire from dusk to dawn. The system lights at dusk and switches off at dawn automatically.

The scope of work would essentially cover, but not limited to site survey, design, engineering, pre-dispatch inspection, supply, insurance, transportation, storage, civil work, erection, testing, commissioning, warranty and comprehensive operation & maintenance of Solar Street Light System for a period of 5 Years.

The brief technical specification as follows,

Sr. No	Components	Specification for Solar street light fitting
1.	PV Module	75 Wp under STC (Only indigenous modules shall be used in this Project)
2.	Battery System	Minimum 12.8V, 30 AH capacity Lithium Ferro Phosphate battery with BMS.
3.	Light Source	White Light Emitting Diode (W-LED) 12 Watt, W-LED luminaire, dispersed beam, soothing to eyes with the use of proper optics and diffuser. LED Chip should be compliance to IES: LM-80-2008 (Approved Method for Measuring Lumen, Maintenance of LED Light Sources and LED lumen depreciation time to L70). Test report for same should be submitted.
4.	Light Out put	The luminaire must use high efficacy W-LED with minimum 135 lumens per watt (and UV free). [A certificate to be submitted by the System supplier to the Test Lab during certification] For single light level: Minimum 24 Lux when measured at a point 4 meters below the light. The illumination should be uniform without dark bands or abrupt variations, and soothing to the eye. Higher light output will be preferred. For Multiple Light levels: The luminaire should have two levels of light to take care of different lighting needs during the night. Minimum 24 Lux when measured at a point 4 meters below the light (at " High" illumination level). The illumination should be uniform without dark bands or abrupt variations. Minimum 12 Lux at lower illumination level. (Higher light output will be preferred) The luminaire shall be tested for Electrical, Photometry and Color

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

		<p>parameters as per IES LM-79:2008 or IS: 16106:2012 for following performance parameters like:</p> <ol style="list-style-type: none"> 1) Total luminous flux: ≥ 1500 lm. 2) Luminous efficiency (i.e. system efficiency): ≥ 125 lm/W. 3) Color Temperature: Between 5500° K to 6500° K. 4) CRI ≥ 70 5) Luminous intensity distribution should follow the batwing patterns in polar curves. 6) Require validation report using .ies file, which is generated during luminous intensity distribution test and using maintenance factor 0.9 and pole height of 4m, Road width 5m and Pole span 15 m. The average illuminance level and uniformity should comply with requirement as per IS 1944, wherever applicable. 7) The luminaire should be tested for all type tests as per IS 10322 Part 5 Sect 3 or IEC 60598-2-3 standards.
5	Mounting of light	Pole height Min. 4.5 m above the ground level and 1 m below the ground. Luminaire shall be at least 4.0 m above the ground level.
6	Electronics Efficiency	Overall total Efficiency of the Electronics should be Minimum 90%
7	Duty Cycle	Dusk to dawn: First 4 Hours full light (Min. 24 Lux), rest of the time at lower light (50%, Min. 12 Lux) level.(Higher light output will be preferred)
8	Autonomy	3 days or Minimum 36 operating hours per permissible discharge with fully charged Lithium-Ferro Phosphate Battery.
9	Ingress Protection – IP	Optical and Control gear compartment - IP 65 / IP 66
10	Impact resistance of casing	\geq IK 08
11	Radiated Emission Test	As per CISPR-15
12	ESD (Electro Static Discharge) and Radiated susceptibility test	As per IEC 61547

The detailed specifications are as under:

A. PV Module:

Crystalline type solar module(s) of desired nominal voltage or peak power rating which meet MNRE specifications are considered appropriate for inclusion in this offer.

The modules used shall have following specifications at STC:

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 35 of 79	Signature of Bidder
--	--	---------------	---------------------

Parameter	Value
Type	75W36
Peak Power Output (Wp)	75 Watt
Current at Peak Power Output (I_m)	4.17 Amp. DC
Voltage at Peak Power Output (V_m)	18.0 Volt DC
Open Circuit Voltage	22.0 Volt DC

Other Specifications:

1. Indigenously manufactured PV module should be used.
2. The PV module should have crystalline silicon solar cells and must have a certificate of testing conforming to IEC 61215 Edition II / BIS 14286 from an NABL or IEC accredited Laboratory.
3. The power output of the module under STC should be a minimum of 75Wp.
4. The module efficiency should not be less than 14 %.
5. The terminal box on the module should have a provision for opening it for replacing the cable, if required.
6. There should be a Name Plate fixed inside the module which will give:
 - i. Name of the Manufacturer or Distinctive Logo.
 - ii. Model Number
 - iii. Serial Number
 - iv. Year of manufacture
7. A distinctive serial number starting with REC will be engraved on the frame of the module or screen printed on the tedlar sheet of the module.

B. Luminaire:

1. The lamp shall be a white LED type with a rating of 12 W.
2. The LED efficiency should be more than 135 lumens per watt. The total luminaire efficacy should not be less than 90 lumens per watt.
3. The colour temperature of white LED used in the system should be in the range of 5500°K–6500°K.
4. W-LEDs should not emit ultraviolet light.
5. The light output from the white LED light source should be constant throughout the duty cycle.
6. The lamp shall be housed in a weather- proof assembly suitable for outdoor use.
7. The temperature of heat sink should not increase more than 20°C above ambient temperature during the dusk to dawn operation.
8. Display indications – Low battery and charging.
9. The Luminaire housing should be water proof (IP 65) and should be painted with a corrosion resistant paint and should be housing the battery.

C. Electronics of Luminaire :

1. The total electronic efficiency should be at least 90 %.
2. Charge controller should be MPPT Type.
3. Electronics should operate at an appropriate voltage suitable for proper charging of the battery.
4. No Load current consumption should be less than 20 mA.
5. The PV module itself should be used to sense the ambient light level for switching ON and OFF the lamp.
6. The PCB containing the electronics should be capable of solder free installation and replacement.
7. Necessary lengths of wires/cables, switches suitable for DC use and fuses should be provided.
8. Adequate protection shall be provided under “No Load Condition”. e.g. when the lamp is removed and the system is switched ‘ON’.
9. The system shall have protection against battery overcharge and deep discharge conditions.

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 36 of 79	Signature of Bidder
--	--	---------------	---------------------

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

10. The System should have protection against short circuit conditions.
11. Protection for reverse flow of current through the PV module(s) should be provided.
12. Electronics should have temperature compensation for proper charging of the battery throughout the year.
13. Adequate protection should be provided against battery reverse polarity.
14. Load reconnect should be provided at 80% of the battery capacity status.

D. Indicators:

1. The system should have two indicators, green and red.
2. The green indicator should indicate the charging under progress and should glow only when the charging is taking place. It should stop glowing when the battery is fully charged.
3. The red indicator should indicate the battery "Load Cut Off" condition.

E. Battery System:

1. The battery shall be Lithium Ferro Phosphate battery.
2. The Battery capacity shall be Minimum 12.8 V, 30 AH.
3. The battery pack should have proper Battery Management System (BMS) for cell balancing, over charge and over temperature protection. It may be either separate from the light fixture or may be an integral part of the fixture.
4. Battery should conform to the latest BIS/ International standards.

F. Mechanical Hardware:

1. A metallic frame structure (with corrosion resistant paint / GI) shall be provided to hold the SPV module. The frame structure shall have provision to adjust its angle of inclination to the horizontal between 0 to 45 Degrees so that it can be installed at the specified tilt angle.
2. The pole should be galvanized Iron pipe with Minimum length- 5.5 meters, OD-75 mm & Thickness-2 mm.
3. Pole height 4.5 m above the ground level and 1 m below the ground. Luminaire shall be at least 4.0 m above the ground level.
4. Pole should be fixed in 1:2:4 concrete mix, min. size 0.75 M deep in ground x 45 cm x 45 cm wide, with six inch top muffing with concrete (1:2:4) above ground level & duly painted as per standard norms. The G.I. base plate (15" x 15" x 1 CM thickness) shall be welded properly with the base end of the pole which will be checked at the time of PDI. All the poles shall be numbered in sequence for each taluka/location.
5. The pole should have the provision to hold the luminaire.
6. The battery pack (if outside the luminaire enclosure) should be water proof (IP 65) and corrosion resistant in a vented, acid proof and corrosion resistant, hot dip galvanized metallic box (IP 65) with anti-theft locking arrangement for outdoor use.
7. Proper arrangement to emboss logo of REC and REIL at visible height.

2. List of IEC/BIS standards applicable for components of Solar PV Applications.

SNo.	Product	Indian Standard Number	Title of Indian Standard
------	---------	------------------------	--------------------------

1.	Crystalline Silicon Terrestrial Photovoltaic (PV) modules (Si wafer based)	IS 14286 :2010 / IEC61215,2nd Edition IS/IEC 61730	Crystalline Silicon Terrestrial Photovoltaic (PV) modules - Design Qualification And Type Approval. Safety Qualification
2.	Electronics	EN50530 IEC 62093 Equivalent BIS Std	Charge Controller / MPPT Units and Protections
3.	Storage batteries	IS 16270 and IS 16046:2015	General Requirements and Methods of Testing
4.	LED Lights & Luminaires	LM-80-2008 LM-79:2008 or IS: 16106:2012 IEC62384 IS 16101 IS 16102 IS 16103 IS 16107	LED Chip Performance Luminary tested for Electrical, Photometry and Color parameters Diver Safty General Lighting - LEDs and LED modules – Terms and Definitions Self-Ballasted LED Lamps for General Lighting Services Led Modules for General Lighting Luminaires Performance
5.	Cables	IEC 60189 IS 694/ IS 1554 IS/IEC 69947	General Test and Measuring Method PVC insulated cables for working voltage up to and including 1100 V UV resistant for outdoor Installation
6.	Junction Boxes/Enclosures for Inverters/Charge controllers/Luminaries	IEC 62208 and IP 65	General Requirements

3. QUALITY AND WARRANTY

1. The street lighting system (including the battery) will be warranted for a period of five years from the date of supply.
2. The PV module(s) will be warranted for a minimum period of 25 years from the date of supply. The PV modules must be warranted for their output peak watt capacity, which should not be less than 90% at the end of Ten (10) years and 80% at the end of Twenty five (25) years.
3. The Warranty Card to be supplied with the system must contain the details of the system.

4. OPERATION and MAINTENANCE MANUAL

An Operation, Instruction and Maintenance Manual, in English and the local language, should be provided with the Solar Street Lighting System. The following minimum details must be provided in the Manual:

- Basic principles of Photovoltaic.
- A small write-up (with a block diagram) on Solar Street Lighting System - its components, PV module, battery, electronics and luminaire and expected performance.
- Type, Model number, Voltage & capacity of the battery, used in the system.
- The make, model number, country of origin and technical characteristics (including IESNA LM-80 report) of W-LEDs used in the lighting system.
- About Charging and Significance of indicators.

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System.	NIT No.: REIL/PROJECT/REC-SSLS/2021-22/003	Page 38 of 79	Signature of Bidder
--	--	---------------	---------------------

Notice Inviting Tender for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of Solar Street Light System .

- Clear instructions about erection of pole and mounting of PV module (s) and lamp housing assembly on the pole.
- Clear instructions on regular maintenance and troubleshooting of the Solar Street Lighting System.
- DO's and DONT's.
- Name and address of the contact person for repair and maintenance, in case of non-functionality of the solar street lighting system.

5. OPERATION and MAINTENANCE

Contractor shall provide operation & maintenance for five years. During O&M period, contractor or its representative must visit the site on half monthly basis (15 days) and contractor will replace the faulty items within a week free of cost. AMC does not cover, damage to system, theft or defect arising out of willful damage and or misuse of equipment. Safety and Security shall be in the scope of beneficiary but the insurance of the system upto O&M period will be taken by the contractor.

Rajasthan Electronics & Instruments Ltd.
2-Kanakpura Industrial Area,
Jaipur-302034

Dear Sir,

We refer to the NIT No.....dated.....for “Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of 1650 Nos. Solar Street Light Systems in rural and tribal areas of Nashik District of Maharashtra on turnkey basis”.

We have carefully read and examined in detail the NIT, including its amendments and clarifications as available on CPP Portal.

We confirm that M/s..... (Insert name of Bidding Company/) has fulfilled all the Requirements of MSME Act and as per the acknowledgement/certificate of MSEs provided by (Insert name of Authority who has provided the MSEs Certificate), we are eligible for Design, Supply, installation, testing, Commissioning with Comprehensive Operation & Maintenance for 5 years of 1650 Nos. Solar Street Light Systems in rural and tribal areas of Nashik District of Maharashtra on turnkey basis which the bid has been submitted by us in pursuance to the REIL’s NIT No.....dated.....

Further, we are complying and will continue to comply all terms and conditions of acknowledgement / certificate of MSEs until any further orders from the MSEs authority. Any change in the acknowledgement / certificate of MSEs submitted to REIL, shall be immediately apprised to REIL for their any further decision in this regard.

Further, we are also eligible for the benefits provided under MSEs Act, 2006 and any further order issued by Govt. of India in this regard prior to last date of bid submission for the aforementioned NIT.

In case any information provided/documents submitted or anything material or otherwise is found w.r.t above undertaking, REIL shall have the right to cancel the Work Order to us and forfeit the Performance Bank Guarantee submitted by us. In addition to above, we (including our parent) may also be debarred by REIL to participate in any future tender.

All the terms used herein but not defined, shall have the meaning as ascribed to the said terms under the NIT.
