		<p>In case (A-B) is less than 0 (zero), value of (A-B) shall be taken as 0 (zero).            *(Balance scope of work/ supply)            Difference of Contract Quantities and Executed Quantities as on the date of issue of Letter for 'Termination of Contract', shall be taken as balance scope of Work/ Supply for calculating risk &amp; cost amount.            Contract quantities are the quantities as per original contract. If, Contract has been amended, quantities as per amended Contract shall be considered as Contract Quantities.            Items for which total quantities to be executed have exceeded the Contract Quantities based on drawings issued to contractor from time to time till issue of Termination letter, then for these items total Quantities as per issued drawings would be deemed to be contract quantities.            Substitute/ extra items whose rates have already been approved would form part of contract quantities for this purpose. Substitute/ extra items which have been executed but rates have not been approved, would also form part of contract quantities for this purpose and rates of such items shall be determined in line with contractual provisions.            However, increase in quantities on account of additional scope in new tender shall not be considered for this purpose.            NOTE: Incase portion of work is being withdrawn, contract quantities pertaining to portion of work withdrawn shall be considered as 'Balance scope of work/supply' for calculating Risk &amp; Cost amount.            LD against delay in executed work/supply in case of Termination of Contract            LD against delay in executed work/supply shall be calculated in line with LD clause of the contract for the delay attributable to contractor/ supplier. For this purpose, contract value shall be taken as Executed Value of 30work/supply for the purpose of limiting maximum LD value.            Method for calculation of "LD against delay in executed work/supply" is given below.            1. Let the time period from scheduled date of start of work till termination of contract excluding the period of Hold (if any) not attributable to contractor/ supplier= T1            2. Let the value of executed work/supply till the time of termination of contract= X            3. Let the Total Executable Value of work/supply for which inputs/fronts were made available to contractor/ supplier and were planned for execution till termination of contract = Y            4. Delay in executed work/supply attributable to contractor/supplier i.e. <math>T2=(1-X/Y) \times T1</math>            5. LD shall be calculated in line with LD clause of the Contract for the delay attributable to contractor/ supplier taking "X" as Contract Value and "T2" as delay attributable to contractor/ supplier.            Note: Incase portion of work/supply is withdrawn; no LD shall be applicable for portion of work/supply withdrawn.</p>
