1. Financial Bid of only those Bidders shall be opened whose technical bids are found to be qualified.

2. The Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit a bid (single application) and shall quote single tariff for the Project. The tariff has to be quoted up to two places of decimal only. If it is quoted with more than two digits after decimal, it shall be ignored after first two decimal places. (For e.g. if the quoted tariff is INR 4.116, then it shall be considered as INR 4.11)
3. In this step, evaluation will be carried out based on tariff quoted by Bidders.
4. On completion of Techno-Commercial bid evaluation, if it is found that only one or two Bidder(s) is/are eligible for opening of financial bid, opening of the financial bid of the bidder will be at the discretion of BSPGCL. Thereafter, BSPGCL will take appropriate action as deemed fit.
5. Ranking of Bidders for the project after Financial Bid Evaluation: Following illustrates an example of ranking of bidders after financial bid opening and evaluation

Bidder	Submitted Financial Bid	Ranking
B1	₹ 3.50 (Tariff in ₹/ kWh)	L1
B2	₹ 3.60 (Tariff in ₹/ kWh)	L2
B3	₹ 3.70 (Tariff in ₹/ kWh)	L3
B4	₹ 3.70 (Tariff in ₹/ kWh)	L3

B9	₹ 3.84 (Tariff in ₹/ kWh)	L5

6. The Financial Bids submitted by the Bidders shall be scrutinized to ensure conformity with the relevant provisions of this RFP. Any Bid not meeting any of the requirements as per this RFP may cause the Bid to be considered “Non-responsive” at the sole decision of BSPGCL. After this step, the shortlisted bidders shall be invited for the Reverse Auction.

2.3. Reverse Auction (STEP-3)

- I. For the purpose of discovery of tariffs with transparent process in accordance with relevant guidelines BSPGCL shall be engaging “BELTRON- e-Tendering/ e-Procurement system of Government of Bihar (<https://eproc2.bihar.gov.in>)”. If for any reason whatsoever the e-Tendering portal needs to be changed due to technical/administrative issues, then BSPGCL shall issue necessary Corrigendum/ Notices publicly as applicable. This sort of changes shall not affect the RFP & PPA terms (except for the necessary change of dates, etc accordingly).
- II. The reverse auction for the project shall be conducted through <https://eproc2.bihar.gov.in> portal on the day as intimated by BSPGCL to the eligible bidders.
- III. Shortlisted bidders for Reverse Auction will be able to login into the website of reverse auction and shall follow the guidelines mentioned in this RFP document:
 1. The minimum decrement value for discounted tariff shall be ₹ 0.01 per kWh. The Bidder can mention its revised discounted tariff which has to be at least 1 (one) paisa less than its current tariff.
 2. Bidders can only quote any value lower than their previous quoted tariff taking into consideration of the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can

improve their ranking by quoting the tariff lower than their last quoted tariff.

2.4. Successful Bidder(s) Selection

Bids qualifying in STEP 3 shall only be evaluated in this stage.

- I. The Ranking of the bidders will start from the bidder quoting the lowest Tariff and so on, after the reverse auction process concludes. Bidder quoting the lowest Fixed Tariff for 25 years shall be declared as the lowest bidder and declared as successful bidder for the project. BSPGCL reserves the right to verify all Statements, information and documents, submitted by the Bidder in response to the RFP. Failure of the BSPGCL to undertake such verification shall not relieve the Bidder of its obligations or liabilities hereunder nor will it affect any rights of the BSPGCL there under.
- II. The lowest quoting Bidder will be allotted the project.
- III. In case of a tie among two or more Bidders (i.e. their quoted tariff being the same), then the Bidder with highest net-worth shall be considered for allotment of the Project.
- IV. At the end of Proposal process, a Letter of Intent (LOI) will be issued to the successful Bidders.

In all cases, BSPGCL's decision regarding Proposal of Bidder based on tariff or annulment of tender process shall be final and binding on all participating bidders.

4.2.8 Delivery of power to the point of interconnection at substation of DISCOM where the metering will be done shall be the responsibility of the FSPD at its own cost. For this, the FSPD shall enter into an Agreement with DISCOM for evacuation & transmission of power from its power plant to

the sub-station. The installation of equipment for metering at the power plant side will be the responsibility of the FSPD as per prevailing CEA guidelines.

- 4.2.9 The Company shall also generate matching MVarh corresponding to 0.80 PF & above, as provided in regulation of BERC/CERC so that there is no adverse effect on Grid system. Monthly average PF shall be computed from ratio of kWh to kVarh injected into Grid system during the month.

4.3 Synchronization & Interconnection Facilities

- 4.3.1 The FSPD shall be required to obtain all information with regard to the interconnection facilities as is reasonably necessary to enable it to design, install and operate all interconnection plant and apparatus on the generation plant side to enable delivery of electricity at the Delivery Point.
- 4.3.2 The synchronization equipment will be installed by the FSPD at its generation facility at its own cost. The FSPD shall synchronize its system with the STU system only after the grant of approval of synchronization scheme and subject to verification and checking made by STU of the control and protection system of the generation project & switchyard. The FSPD shall, immediately after each synchronization / tripping of generator, inform the Grid sub-station / Power S/s to which the plant is electrically connected and SLDC, Patna. The FSPD should also inform the concerned connected Grid sub-station / Power S/s / SLDC before any synchronization. The in-charge of the Grid Sub Station or Power Sub-station should also inspect the system of synchronization.
- 4.3.3 The FSPD and Procurer in mutual consultation with each other shall decide on the scheme for protection of the interconnection line(s) and of the facilities at both ends as well as generation protection facilities in case of reverse power flow due to mal operation of the circuit breakers during tripping of the unit (s). - 4.5.2 If for any Contract Year, it is found that the FSPD has not been able to generate minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the FSPD, on account of reasons solely attributable to the FSPD, such shortfall in performance shall make the FSPD liable to pay the compensation to SBPDCL/NBPDCL. The compensation will be equal to one and a half times the PPA tariff for shortfall in energy terms. However, this compensation shall not be applicable in events of Force Majeure identified under the PPA, affecting supply of solar power by FSPD. However, the amount of shortfall in generation shall be adjusted as per methodology proposed by MNRE on account of non-availability of grid for power evacuation which is beyond the control of the FSPD and / or occurrence of abnormally low Global Horizontal Irradiance (GHI) year (i.e. if the actual global solar irradiance in the year under consideration is less than 50% of average values of two (2) years of annual GHI as available from the nearest IMD/SRRA stations).

Any excess generation over and above of declared maximum CUF specified will be purchased by DISCOM at PPA tariff, provided DISCOM is able to evacuate such excess generation. However, the FSPD shall inform at least 60 days in advance of such excess generation to SLDC/ DISCOM, to enable DISCOM take necessary actions for sale of this excess generated energy. DISCOM shall be required to intimate its approval/refusal to the FSPD, for buying such excess generation not later than 1 month of receiving the above offer from the FSPD. In the event the offer of the FSPD is not accepted by DISCOM within the said period of 1 month, such right shall cease to exist and the FSPD shall, at its sole discretion, may sell such excess power to any third party. While the FSPD would be free to install DC solar field as per his design of required output, including his requirement of auxiliary consumption limited to maximum 0.50%, he will not be allowed to sell any excess power to any other entity other than NBPDCL/SBPDCL (unless refused by NBPDCL/SBPDCL). However, in case at any point of time, the peak of capacity reached is higher than the rated capacity and causes disturbance in the system at the point where power is injected, the developer will have to forego the excess generation and reduce the output to the rated capacity.
- 4.5.4 The sale of power under open access within or outside the state from the Solar Power Generating sources will be in accordance with the provisions of BERC (Terms and Conditions for Open Access) Regulation, 2006 for use of the Intra State transmission, distribution system or associated facilities as amended from time to time and CERC (Open Access in Inter State Transmission) (Amendment) Regulation, 2008 or as amended from time to time.

Dedicated CTs and PTs of 0.2S or 0.5 class or better accuracy shall be made available at the Delivery point (PSS) and at the out-going feeder of the generating station end by FSPD. The Energy meters will be DLMS compliant and with GPRS MODEM and having ABT feature also. The detail specification of Energy Meters will be approved by Procurer prior to placing order for the energy meter by the FSPD. The finalization of the metering scheme will be through mutual discussion between Procurer and the FSPD at the time of procurement in order to adopt latest developed technology and equipment.

7.2 All the meters, CTs and PTs described in Clause 7.1 above shall be jointly inspected and sealed on behalf of both Parties and shall not be interfered with except in the presence of the representatives of both Parties. For testing and calibration of meters, a notice of at least seven (7) days shall be given by the Party requesting the testing to enable the authorized representatives of both the parties to be present. All energy meters, CT, PT will be tested at NABL Accredited lab/laboratory of Procurer at Patna requisite testing charges shall be borne by FSPD

Of these fifteen values, the error at the load and power factor nearest the average monthly load served at the point during the period shall be taken as the error to be applied for correction.
- 7.8 The billing will be normally done on the basis of readings recorded by the meters installed at the Delivery point (Main Meters) at grid substation of BSPTCL/DISCOMs or State Energy Account prepared by SLDC/RLDC. In case the metering equipment of Delivery point becomes defective, the billing shall be done on the basis of meter readings of the meters installed at generating station switchyard. Under such condition the net power supplied to Procurer system will be calculated as follows:
- Net Energy supplied to Procurer (in Kwh) = [Energy recorded at the check meter installed at the outgoing feeder of the generating station switchyard - Transmission loss]. Transmission loss will be as determined by BERC/CERC from time to time. The defective meters shall however be replaced within three (3) months of the detection by either party.
- 7.9 If both the Energy Meters located at the outgoing feeder of the generation switch yard and STU Grid/DISCOM Substation fail to record the Electricity supplied then the Electricity supplied will be computed from the log sheets maintained at Procurer's Grid substation / Power Substations for that period of defect. The M.R.I of the meter will be considered an authentic document for verification of the meter reading and will be final & binding on both parties.
- 7.10 For the purpose of test & calibration, the sub standard meter shall be got calibrated and sealed from reputed testing Laboratory. This meter shall be calibrated once in every 2 years or as per

relevant government guide. All expenses towards such required tests/calibrations shall be borne by FSPD.

DRAFT COMMISSIONING PROCEDURE

Capacity of Floating Solar PV Project: The Project configuration shall be allowed as per the following.

Floating Solar PV Project Capacity Awarded	Min DC Arrays Capacity to be installed	Min Rated Inverter Capacity*	Max AC Capacity Limit at Delivery point
10MW(AC)	(not less than final accepted installed capacity)		

* In case the rated inverter capacity is mentioned in kVA, the IEC test certificate declaring the power factor of the Inverter/PCU at rated power has to be submitted and the power factor shall be multiplied by the kVA rating to calculate the rated capacity of the inverter in kW.

- The FSPD shall be required to demonstrate compliances with regard to the technical requirements for Grid Connected Solar PV Power Plants as issued from time to time by MNRE/CEA/BSPGCL/Govt. of Bihar/BSPHCL/SBPDCL/NBPDCL.
- For commissioning of the Project, cumulative capacity of DC arrays and cumulative capacity of the inverters installed shall be considered.

Commissioning Procedure

The Floating Solar PV Project will be declared as commissioned when all equipment as per rated project capacity has been installed and energy from the Project has flown into the grid, which will be verified by a committee/agency identified by BSPGCL/BSPHCL/NBPDCL/SBPDCL to witness the Commissioning of the Project.

Following is the chronology of the procedure to be followed for commissioning of the Project.

- SPDs shall give to the concerned SLDC/BSPTCL/BSPHCL/NBPDCL/SBPDCL and BSPGCL at least sixty (60) days advanced preliminary written notice and at least thirty (30) days advanced final written notice, of the date on which it intends to synchronise the Power Project to the Grid System. The FSPD shall be solely responsible for any delay or non-receipt of the notice by the concerned agencies, which may in turn affect the Commissioning Schedule of the Project.
- Not more than 7 days prior to the proposed commissioning date, the FSPD shall give

the final written notice to RLDC/SLDC/BSPTCL/BSPHCL/NBPDCL/SBPDCL and BSPGCL requesting the commissioning committee/agency to visit the site to witness commissioning of the project. Following documents are required to be submitted by the FSPD, physically in the office of BSPGCL/BSPHCL/NBPDCL/SBPDCL along with the above notice, duly stamped and signed by the Authorized Signatory:

1. Covering Letter
 2. Board resolution for authorized signatory for signing the documents related to commissioning of the Project and witnessing the commissioning.
 3. Installation report duly signed by the authorized signatory as per Appendix-1. The FSPD is advised to take due care in furnishing such Installation Report. Discrepancy (if any) and observed, may be construed as misrepresentation of information by the FSPD.
 4. Details of the solar modules, Inverters/PCUs and DC cables along with the summary sheet containing the list of all the invoices, including details and number of items
 5. All supporting documents along with datasheet/ warranty certificates/ contract agreement etc. towards meeting the compliances with regard to the technical requirements for Grid Connected Solar PV Power Plants as issued from time to time by MNRE/CEA/BSPGCL/Govt. of Bihar/BSPHCL/SBPDCL/NBPDCL
 6. Plant Layout, Plant SLD(AC & DC), along with Inverter-wise module details.
 7. CEI/CEIG (as applicable) report containing approval for all the components, including modules, inverters, transformers and protection system, along with all annexures /attachments. It would be the responsibility of the FSPD to obtain the certificate.
 8. Connectivity Agreement.(if required)
 9. Photographs / Snap shots of the plant, including but not limited to, solar PV modules, all inverters, switchyards/switchgears, transformers, metering system at delivery point and generating station end etc.
- iii) After the submission of the above documents by FSPD, BSPGCL shall verify the documents and intimate / reply with remarks. In case any additional supporting/revised documents are asked by BSPGCL, the same have to be submitted by the FSPD.
- iv) Based on the submission of the above documents by the FSPD, BSPGCL shall intimate to the FSPD about its plan to visit the project site to witness the commissioning and shall notify the Commissioning Committee/Agency which shall visit the Project site to witness the commissioning of the Project.

The Commissioning Committee/Agency shall visit the Project site to verify the technical compliance on site as per the information submitted by the FSPD and to witness the commissioning. In case the committee finds discrepancy/deviation from the information submitted by the FSPD during on site verification, the same shall be

recorded by the Committee/Agency. BSPGCL shall decide the next date of visit of the Committee/Agency upon rectification of the discrepancies by the FSPD.

- v) On the date of site-visit, the FSPD shall be required to demonstrate that equipment of rated capacity has been installed, all the inverters of rated capacity are operating and energy as per rated power contracted from the project has flown into the grid.
- vi) Joint Meter Reading (JMR) of Main Meters(s) and Check Meter(s) shall be taken at Delivery Point and at the outgoing feeder of the generating station end respectively on the date of site visit by the commissioning committee.
- vii) In case the Project meets the requirements as provided above is verified by the Commissioning Committee witnessing the commissioning, the Project shall be declared as having been commissioned.
- viii) Subsequent to the visit of the Commissioning Committee to the Project site, the FSPD shall submit the following documents in hard copy, in order to fulfil the requirements for issuance of Commissioning Certificate:
 - a. Report of the Commissioning Committee which has witnessed the commissioning of the Project.
 - b. Relevant documents from SLDC/BSPTCL acknowledging successful data communication between plant end and SLDC.
 - c. Project Synchronization certificate issued form SLDC/BSPTCL/NBPDCL/SBPDCL as per Appendix-2

Based on the documents as per (viii) above and in line with the report of the Commissioning Committee, Commissioning Certificate of the Project shall be issued.
