- 1.1.2** In order to fulfill the renewable power purchase obligation (RPPO) and to meet the future requirements of Discoms, GUVNL intends to procure wind power up to capacity of 300 MW through Competitive Bidding Process (Phase VI) [conducted through electronically facilitated online web based portal followed by reverse auction] and additional upto 300 MW of power under ‘Greenshoe Option’.
- 1.1.3** Ministry of Power (MoP) has issued “Guidelines for Tariff Based Competitive Bidding Process for Procurement of Power from Grid Connected Wind Power Projects” vide Gazette Resolution dated 26 July 2023. Subsequently, the Ministry has issued “Amendment to the Guidelines for Tariff Based Competitive Bidding Process for Procurement of Power from Grid Connected Wind Power Projects” on 17 November 2023. As per Clause No.18 of these Guidelines, approval of appropriate Govt. is required for any deviation from these Guidelines. Govt. of Gujarat has approved deviations. This Request for Selection document (hereinafter called RfS) has been prepared in line with the Guidelines issued by MoP dated 26 July 2023 & its amendment(s) thereto with deviations approved by Govt. of Gujarat.

### **1.2 Details of Power Procurement**

- 1.2.1** The bidders selected by GUVNL based on this RfS, shall set up Wind Power Projects in accordance with the provisions of this RfS document and standard Power Purchase Agreement (PPA). The draft PPA format has been enclosed and can be downloaded from <https://www.bharat-electronictender.com>
- 1.2.2** The Projects shall be located at the locations chosen by the Bidders anywhere in India at its own discretion of cost, risk and responsibility. In case of Inter-State Projects and Projects connected through CTU Network, the all transmission charges and losses upto delivery point shall be to the account of the Successful Bidder.
- 1.2.3** Successful Bidder can opt for connectivity at STU (GETCO) or CTU Sub-station. A detailed indicative list providing tentative RE integration capacity (MW) available districtwise / sub-station wise is available on GETCO’s website and can be downloaded from [https://www.getcogujarat.com/getco\\_newsite/reif.php](https://www.getcogujarat.com/getco_newsite/reif.php). In case of STU (GETCO) connectivity, the Bidders shall have to choose the location(s) and sub-

station(s) for their proposed Wind Power Project from the above list as amended / updated by GETCO from time to time. The Bidders shall apply due diligence while choosing the proposed substation. Availability of feeder bays will be checked by GETCO after receipt of connectivity application from respective bidders. The successful bidders may declare the name(s) of proposed sub-station to GETCO within 7 days from issuance of LOI by GUVNL to decide priority to be given to such successful bidders for granting connectivity which shall be done on L1 priority basis and no changes shall be allowed after such selection. #### **3.10.3 Power Generation by Successful Bidder**

(i) **Criteria for Generation:**

The Successful Bidder shall declare the annual CUF of their Project at the time of signing of PPA and the same will be allowed to be revised once within first three years of CSD. The declared annual CUF shall in no case be less than 22%. The Successful Bidders shall have to maintain generation so as to achieve annual CUF within + 20% and -20% of the declared CUF during the PPA duration of 25 years. The lower limit will, however, be relaxable by GUVNL to the extent of non-availability of grid for evacuation which is beyond the control of the Successful Bidder. For the first year of operation of the Project, the annual CUF shall be calculated for the complete year after CSD of the Project and subsequently, the annual CUF will be calculated every year from 1st April of the year to 31st March next year. Similarly, for the last year of operation of the Project, the annual CUF shall be calculated for the complete calendar year before the expiry of the PPA.

(ii) **Shortfall in Generation:** If for any Contract Year, it is found that the Successful Bidder has not been able to generate minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the Successful Bidder, on account of reasons solely attributable to the Successful Bidder, such shortfall in performance shall make the Successful Bidder liable to pay the compensation @ 50% (fifty per cent) of the PPA tariff to GUVNL. This will, however, be relaxable by GUVNL to the extent of grid non-availability for

evacuation (beyond the Delivery Point) which is beyond the control of the Successful Bidder. This compensation shall be applied to the amount of shortfall in generation during the Contract Year.

However, this compensation shall not be applicable in events of Force Majeure identified under the PPA with GUVNL, affecting supply of wind power by the Successful Bidder.

- (iii) **Excess Generation:** In case the generation is over and above 20% of declared annual CUF, the Successful Bidder will be free to sell it to any other entity provided first right of refusal will vest with GUVNL. GUVNL shall provide refusal within 15 days from the confirmation of receipt of the request by GUVNL, beyond which it would be considered as deemed refusal. In case GUVNL purchases the excess generation, the same may be done at PPA tariff. The Successful Bidder may also sell the power which was offered on day ahead basis to the GUVNL within the limit of +20% of declared CUF, but not scheduled by the GUVNL, to any third party or power exchange without requiring NOC from the GUVNL.
- (iv) **Generation Compensation in offtake constraints due to grid unavailability beyond Delivery Point** - During the operation of the plant, there can be some periods where the plant can generate power but due to temporary transmission unavailability beyond Delivery Point the power is not evacuated, for reasons not attributable to the Successful Bidder. In such cases the generation compensation shall be addressed by GUVNL in following manner:

<b>Duration of Grid unavailability beyond Delivery Point</b>	<b>Provision for Generation Compensation</b>
Grid unavailability (beyond Delivery Point) beyond 50 Hrs. in a contract year as defined in the PPA:	<p>Generation Compensation = ((Tariff X RE power (MW) offered but not scheduled by Procurer)) X 1000X No. of hours of grid unavailability</p> <p>However, in the case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realized, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

- (v) **Offtake Constraints Due to Back down-** The Successful Bidder and GUVNL shall follow the forecasting and scheduling process as per the regulations in this

regard by the GERC / CERC. In case the plant is available to supply power but the off take of power is not done by the Procurer, including non-dispatch of power due to non-compliance with “Electricity (Late Payment Surcharge and Related Matters) Rules, 2022 notified by the Ministry of Power vide Gazette notification dated 3rd June 2022” and any clarifications or amendment thereto, considering the principle of „must run” status for RE Power as per the Clause 5.2(u) of India Electricity Grid Code (IEGC). Accordingly, no Wind Power Plant, duly commissioned, should be directed to back down by a DISCOM / Load Dispatch Centre (LDC). In case such eventuality of Back down arises, except for the cases where the Back down is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions, the Generator shall be eligible for payment from the Procurer, corresponding to the reduced off take, in terms of following manner:

<b>Duration of Back down</b>	<b>Provision for Generation Compensation</b>
Reduced off-take beyond 50 hours in a year, as defined in the PPA:	<p>Generation Compensation = ((Tariff X RE power (MW) offered but not scheduled by Procurer)) X 1000 X No. of hours of Reduced Offtake</p> <p>However, in the case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realized, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

For claiming compensation the generator must sell their power in the power exchange as a price taker. Thus, the compensation would be limited to the difference of the actual generation up to declared capacity subject to a maximum of up to the contracted capacity and the quantum of power scheduled by the procurer.

**3.10.4** The Successful Bidders shall be free to operate their projects after expiry of the PPA term of 25 years, if other conditions like land lease etc., permits. However, any extension of the PPA period beyond the term of 25 years shall be through mutual agreements between the Successful Bidder and GUVNL.

**3.10.5** The Power Producer will be free to re-power their Plant(s) from time to time during the PPA duration as per the Gujarat Renewable Energy Policy, 2023 and its amendments / extensions, if any.

**3.11 Financial Closure or Project Financing Arrangements**

The Successful Bidder shall report tie-up of Financing Arrangements along with documentary evidence(s) thereof for the Project(s) within 7 months from the date of

execution of PPA. The Successful Bidder shall submit a certificate / necessary documents from the concerned financing agencies regarding the tie-up of 100% of the funds indicated for the Project, including arrangements of funds in the form of Equity.

An extension for the attainment of the Financial Closure can however be considered by GUVNL, on the sole request of the Successful Bidder, on advance payment of extension charges of Rs. 1,000/- per day per MW. In case of any delay in depositing this extension charge, the Successful Bidder has to pay an interest on this extension charge for the days lapsed beyond due date of Financial Closure @ SBI MCLR (1Year). This extension will not have any impact on the SCSD. Any extension charges paid so, shall be returned to the Successful Bidder without any interest on achievement of successful commissioning within the SCSD, on pro-rata basis, based on the Project Capacity commissioned on SCSD. However, in case of any delay in commissioning of the project beyond the SCSD, the amount as deposited above by the Successful Bidder shall not be refunded by GUVNL.

### **3.12 Commissioning and Penalty for delay in commissioning**

**3.12.1** The Commissioning of the Projects shall be carried out by the Successful Bidder, in line with the Procedure elaborated in the Draft PPA.

- a) "The Successful Bidder shall be required to obtain Developer and / or Transfer Permission, Key Plan drawing etc. from GEDA / similar permission issued by concerned State Nodal Agency and submit the same to GUVNL prior to actual commissioning of the Project in accordance with the applicable Rules / Orders / Regulations." Further, the Successful Bidder shall have to submit evidence of clear possession of Project Site on or before the SCSD for which the Successful Bidder shall provide documents / Lease Agreement to establish possession/ right to use 100% (hundred per cent) of the required land in the name of the Successful Bidder or its Affiliate. In case the land is in the name of Affiliate, the land should be transferred in the name of Successful Bidder prior to the SCSD. Wherever leasing of private land is involved, the lease should allow transfer of land to the lenders or GUVNL, in case of default of the Successful Bidder. For lease of Government land, if the lease is not available upfront for the entire term of the PPA, then the Successful Bidder shall be required to give an undertaking stating that they shall be solely responsible for securing the extension of required land for the balance period of term of PPA. For lease of private land, the lease period shall cover the entire term of PPA. In case  $(0.8 \times ST) > 300$  MW – The lowest ranked bidder i.e. the bidder quoting the highest tariff (H1 Bidder) shall be eliminated at this stage and remaining techno-commercially qualified bidders whose financial bids are in accordance with the provisions of the RfS, will be shortlisted for e-RA.

Accordingly, the no. of Bidders shortlisted for e-RA i.e.

$n = T-1$

Note:-

In case more than one bidder is ranked as H1 bidder (same tariff), then all such bidders will be eliminated at this stage.

The above elimination will take place subject to the condition that the total bid capacity after such elimination remains more than 300 MW. In the contradictory scenario, no elimination will take place at this stage.

**4.3.3** Shortlisted bidders for Reverse Auction will be able to login into <https://www.bharat-electronictender.com> for reverse auction 15 minutes before the start time of reverse auction.

- i)** During 15 minutes prior to start of reverse auction process, the respective tariff along with the total project capacity of the bidder shall be displayed on its window.
- ii)** The minimum decrement value for tariff shall be ₹ 0.01 per kWh. The bidder can mention its revised tariff which has to be at least 01 (one) paisa less than its current tariff.
- iii)** Bidders can only quote any value lower than their previous quoted tariff taking into consideration of the minimum decrement value mentioned in previous Section. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
- iv)** During Reverse Auction, the bidder shall not have the option of changing the total project capacity while quoting tariff during reverse auction.
- v)** In the bidder's bidding window, the following information can be viewed by the bidder:
  1. Its tariff as their initial start price and there after last quoted tariff along with project capacity for which the bidder is qualified;
  2. The list of all the bidders with their following details:  
Pseudo Identity, last quoted tariff and project capacity
- vi)** The initial auction period will be of 30 minutes (thirty minutes) with a provision of auto extension by five minutes from the scheduled / extended closing time if any fresh bid is received in last five minutes of auction period or extended auction period. Such auto extension shall be effected only if reduction in tariff by a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:
  - (a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant provided the tariff falls within the range of L1 and L1+2%

(b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant provided the tariff falls within the range of L1 and L1+2%.

(c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant. If no such change is effected during last five minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

#### **4.4 Selection of Successful Bidders**

**4.4.1** Upon conclusion of e-RA process, the Bidders in the “Green Zone” and “Yellow Zone” shall be selected in the ascending order with lowest quoted tariff (being L1) till the tender capacity (300 MW) is exhausted. The bidders who fall within the range of (and including) the lowest tariff (L1 tariff)+2% of the L1 tariff, hereinafter referred to as “the range” will be declared as Successful Bidders, subject to the conditions as enumerated in clauses herein below viz. Clause 4.4.2 to Clause 4.4.5

**4.4.2** The lowest quoting bidder will be allotted its qualified project capacity and then, next higher bidder will be allotted its qualified project capacity and so on, till the total capacity is exhausted.

**4.4.3** In case of the last Selected Bidder, if the balance project capacity is less than the total project capacity mentioned by the bidder, then the balance capacity shall be awarded to the bidder till the total capacity is exhausted subject to a minimum allocation of 25 MW / 50 MW, as the case may be.

Provided, in case the partial capacity (balance capacity till the total capacity of offer is exhausted) offered to the last Bidder after completion of the e-reverse auction is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity within 7 days of issuance of Letter of Intent (LOI) and the BG against EMD submitted by such Bidder shall be returned along with those of the Unsuccessful Bidders.

Further, in case the partial capacity offered is greater than or equal to 50% of the total quoted capacity by such Bidder, then it shall be mandatory for the last Bidder to accept such partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded after e-RA to the successful Bidders not exceeding 300 MW. In case the last Bidder refuses to accept such partial capacity offered by GUVNL, the Bank Guarantee against EMD submitted by such Bidder shall be encashed by GUVNL.

**4.4.4** In case of tie among two or more bidders (i.e. their last quoted tariff being the same), they will be considered in the chronological order of their last bid with preference to that bidder who has quoted his last bid earlier than others.

**4.4.5** In the above case (as mentioned in previous Section), if the time of quote also becomes exactly same among the bidders at a tie, then the ranking among these bidders shall be done as follow:

Step – 1: Lowest rank will be given to the bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

Step – 2: Ranking will be done based on draw of lots.

The allocation of additional upto 300 MW capacity through 'Greenshoe Option' shall be as per Clause 3.3.5 of RFS.

**4.4.6** At the end of selection process, Letter of Intent (LOI) may be issued to all the Successful Bidders. In case of Consortium being selected as Successful Bidder, the LOI may be issued to the Lead Member of the Consortium.

In all cases, GUVNL's decision regarding selection of bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

Also, GUVNL shall reserve the right to short close the capacity lower than 300 MW at its discretion, if the prices are abruptly high. Additionally, the discretion for allotment / non-allotment of additional capacity upto 300 MW under 'Greenshoe Option' shall be vested solely with GUVNL.

GUVNL shall file a Petition before Hon'ble GERC under Section 63 of the Electricity Act 2003 for adoption of tariff and the PPA shall be signed with Successful Bidder or its SPV only after the approval of GERC and in accordance with such approval.

The Successful Bidders are required to sign PPA with GUVNL within 30 days from the date of issuance of Letter of Intent (LOI) or within 10 days from the adoption of tariff by GERC, whichever is later.

### Special Note on Security and Transparency of Bids

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypter<sup>®</sup> functionality, the contents of both the 'Electronic Forms' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

**CAUTION:** All bidders must fill ElectronicForms<sup>®</sup> for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the ElectronicForms<sup>®</sup> and the corresponding Main- Bid. For transparency, the information submitted by a bidder in the Electronic Forms<sup>®</sup> is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the ElectronicForms<sup>®</sup> the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. If variation is noted between the information contained in the ElectronicForms<sup>®</sup> and the 'Main- Bid', the contents of the ElectronicForms<sup>®</sup> shall prevail.

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to GUVNL in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-tendering server/ portal.

### **Other Instructions**

For further instructions, the bidder should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the User-Guidance Center.

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register / First-Time Users, Logged-in users of Buyer organizations, and Logged- in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

**Important Note:** It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

**Seven Critical Do's And Don'ts for Bidders**

Specifically for Supplier organizations, the following 'SEVEN KEY INSTRUCTIONS for BIDDERS' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz. 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization.
3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS
4. For responding to any particular tender, the tender (.i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents.

Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.

5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, et al)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s)
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' your 'Status pertaining Overall Bid-Submission' is 'Complete'. For your record, you can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the 'Status pertaining overall Bid-Submission' is 'Complete'.

NOTE:

*While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.*
