The fixed capacitor banks can provide reactive support only during steady state and also the support is delivered in steps after time delay. Hence, dynamically varying reactive support could be met either by installation of additional or higher capacity Inverters/WTGs or by providing power apparatus like STATCOM, SVC, Synchronous condenser, etc.

Bidders will also be required to furnish the documentary evidence for meeting the RfS Qualification Requirements as per Section 3.4.

3.9.3 Power Generation by Successful Bidder

- (i) **Criteria for Generation:** The Successful Bidder will declare the annual CUF of his Project at the time of submission of response to RfS, which shall be allowed to be modified until 1 year after Commencement of Supply Date (CSD) of the project. Thereafter, the CUF for the Project shall remain unchanged for the entire term of the PPA. The declared annual CUF shall in no case be less than 17%. Successful Bidder shall maintain generation so as to achieve annual CUF within + 10% and -15% of the contracted CUF till the end of 10 years from CSD, and within +10% and -20% of the contracted annual CUF thereafter till the end

of the PPA duration of 25 years, subject to the annual CUF remaining minimum of 15%. The annual CUF will be calculated every financial year from 1st April to 31st March except for first and last contract year.

The CUF shall be calculated on the Contracted Capacity as per under:

- a. For the first contract year starting from the CSD and ending on 31st March of respective year, the CUF shall be calculated as under:

If 'X' MWh of energy has been metered out at the Delivery Point for 'Y' MW Project capacity, $CUF = (X \text{ MWh} / (Y \text{ MW} * Z)) * 100\%$, where "Z" = No. of days from CSD to 31st March of respective year * 24.

- b. In any Contract Year except for first and last contract year, the CUF shall be calculated as under:

If 'X' MWh of energy has been metered out at the Delivery Point for 'Y' MW Project capacity, $CUF = (X \text{ MWh} / (Y \text{ MW} * 8766)) * 100\%$.

- c. For the last contract year, the CUF shall be calculated as under:

If 'X' MWh of energy has been metered out at the Delivery Point for 'Y' MW Project capacity, $CUF = (X \text{ MWh} / (Y \text{ MW} * Z)) * 100\%$, where "Z" = No. of days from 1st April of respective year up to end date of PPA * 24.

- (ii) **Shortfall in Generation:** In case the project generates and supplies energy less than the energy corresponding to the minimum contracted CUF, as defined in Clause 3.9.3 (i), the Solar Power Generator will be liable to compensate GUVNL for the shortfall in availability of energy below such contracted CUF level at 150% of the PPA Tariff.

However, this compensation shall not be applicable in events of Force Majeure identified under the PPA with GUVNL, affecting supply of solar power by the Successful Bidder.

- (iii) **Excess Generation:** In case the energy available is more than the quantum corresponding to maximum contracted CUF specified, the Successful Bidder will be free to sell it to any other entity provided first right of refusal will vest with the GUVNL.

In case the GUVNL purchases the excess generation, the same may be done at the PPA tariff.

(iv) Generation compensation in off-take constraints due to unavailability of transmission infrastructure:

Where the GUVNL does not schedule power on account of unavailability of the Transmission Infrastructure or any other eventuality, the penalty will be in accordance with the Electricity (Promotion of Generation of Electricity from Must-Run Power Plant) Rules, 2021, as amended from time to time.

However, it is clarified that if the plant is ready before SCSD, but the off-take is constrained because of inadequate / incomplete power evacuation infrastructure of CTU beyond Delivery Point, no compensation shall be permissible

(v) Generation compensation in off-take constraints due to Grid unavailability:

During the operation of the plant, there can be some periods where the plant can generate power but due to temporary transmission unavailability the power is not evacuated, for reasons not attributable to the Generator. In such cases the generation compensation shall be addressed by the GUVNL in following manner:

Duration of Grid unavailability	Provision for Generation Compensation
Grid unavailability beyond 175 hours in a year, as defined in the PPA	<p>Generation Compensation = ((Tariff X Solar power (MW) offered but not scheduled by Procurer)) X 1000 X No. of hours of grid unavailability.</p> <p>However, in case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realised, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

(vi) Payment in case of reduced offtake:

The Successful Bidder and the GUVNL shall follow the forecasting and scheduling process as per the regulations in this regard by the Appropriate Commission. In case the plant is available to supply power but the off take of

power is not done by the GUVNL, including non-dispatch of power due to non-compliance with “Electricity (Late Payment Surcharge and Related Matters) Rules, 2022 notified by the Ministry of Power vide Gazette notification dated 3rd June 2022” and any clarifications or amendment thereto, considering the principle of ‘must run’ status for RE Power, the GUVNL shall pay to the Successful Bidders, corresponding to the reduced off take, in terms of following manner:

Reduced Off-take	Provision for Generation Compensation
Reduced off-take beyond 175 hours in a year, as defined in the PPA	<p>Generation Compensation =</p> <p>(Tariff x Solar PV power (MW) offered but not scheduled by Procurer) X 1000 X No. of hours of Reduced Offtake</p> <p>However, in case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realised, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

(vii) For claiming compensation, the generator must sell their power in the power exchange as a price taker. Thus, the compensation would be limited to the difference of the actual generation up to declared capacity subject to a maximum up to the contracted capacity and the quantum of power scheduled by the GUVNL.

(viii) The Generation Compensation is to be paid as part of the energy bill for the successive month after receipt of State Energy Accounts (SEA).

3.9.4 The Successful Bidders shall be free to operate their projects after expiry of the 25 years from the SCSD of the Project. However, any extension of the PPA period beyond 25 years from the SCSD of the project shall be through mutual agreements between the Successful Bidder and GUVNL.

3.9.5 The Successful Bidder may upgrade and re-power their Plant(s) during the PPA period at its own risk and cost. However, GUVNL will be obliged to buy power only within the range of CUF specified in the PPA.

3.10 Arrangements related to Commencement of Supply

3.10.1 The Successful Bidder shall submit quarterly project report in the month of February, May, August and November showing specific status of the following milestones for performance monitoring of the Solar PV Project:

In addition to above, Successful Bidder shall achieve 'Financial Closure' as under:

3.10.2 Financial closure:

"Financial Closure" shall mean arrangement of necessary funds by the Successful Bidder either by way of commitment of funds by the Company from its internal resources and / or tie up of funds through a bank / financial institution by way of sanction of a loan or letter agreeing to finance. At this stage, Successful Bidder shall ensure submission of documents / certificates evidencing the tie up of project cost through internal resources and /or through external Financing Agency and Implementation and Support Agreement executed with SPPD.

The Successful Bidder shall obtain Financial Closure within twelve (12) months from date of execution of PPA.

The Successful Bidder will have to submit the required documents to GUVNL at least 14 days prior to the scheduled Financial Closure date. In case of delay in submission of documents mentioned above, GUVNL shall not be liable for delay in verification of documents and subsequent delay in Financial Closure.

An extension for the attainment of the Financial Closure can however be considered by GUVNL, on the sole request of the selected bidder, on advance payment of extension charges of Rs.1000/- per day per MW. In case of any delay in depositing this extension charge, the selected bidder has to pay an interest on this extension charge for the days lapsed beyond due date of Financial Closure @ SBI MCLR (1 Year).

This extension will not have any impact on the SCSD. Any extension charges paid so, shall be returned to the selected bidder without any interest on achievement of successful commissioning within the SCSD on pro-rata basis, based on the Project Capacity commissioned on SCSD. However, in case of any delay in commissioning of the project beyond the SCSD, the amount as deposited above by the Successful Bidder shall not be refunded by GUVNL.

3.10.3 Land Acquisition:

"Land Acquisition" shall mean acquisition of required land to establish Solar PV Project by the Power Producer either by way of purchase of land or through lease/rent of the land. At this stage, Power Producer shall ensure submission of notarized copy of sale deed or / and lease / rent agreement evidencing the acquisition of land.

The Power Producer shall acquire land for the project within eighteen (18) months from date of execution of PPA.

The Power Producer will have to submit the required documents to GUVNL at least 14 days prior to the scheduled Land Acquisition date. In case of delay in submission of documents mentioned above, GUVNL shall not be liable for delay in verification of documents.

An extension for the acquisition of land can however be considered by GUVNL, on the sole request of the Power Producer, on advance payment of extension charges of Rs.1000/- per day per MW. In case of any delay in depositing this extension charge, the Power Producer has to pay an interest on this extension charge for the days lapsed beyond due date of Land Acquisition @ SBI MCLR (1Year).

This extension will not have any impact on the SCSD. Any extension charges paid so, shall be returned to the Power Producer without any interest on achievement of successful commissioning within the SCSD on pro-rata basis, based on the Project Capacity commissioned on SCSD. However, in case of any delay in commissioning of the project beyond the Scheduled Commencement of Supply Date, the amount as deposited above by the Power Producer shall not be refunded by GUVNL.

3.11 Commissioning and penalty for delay in commissioning

The Commissioning of the Projects shall be carried out by the Successful Bidder selected based on this RfS, in line with the Procedure elaborated in PPA document. The Successful Bidder shall be required to obtain Developer and / or Transfer Permission, Key Plan drawing etc. from GEDA / similar permission issued by concerned State Nodal Agency prior to mounting of the solar panels (if required) and submit the same to GUVNL prior to actual commissioning of the Project. Commissioning certificates shall be issued by the State Nodal Agency i.e. GEDA / similar permission issued by concerned State Nodal Agency after successful commissioning of Project in accordance with the applicable rules / regulations.

Further, the successful bidder shall submit details of Technology adopted as per Annexure A and in accordance with MNRE's Approved List of Models and Manufacturers of Solar PV Modules (Requirements for Compulsory Registration) Order, 2019 as amended from time to time prior to actual commissioning of the Project.

In addition to above, the Successful Bidder shall submit the Connectivity agreement with STU and/or CTU, if applicable and requisite consent for Power Evacuation from STU and/or CTU, if applicable, confirming technical feasibility of connectivity of the Solar Power Project upto the Delivery Point.

3.11.1 Part Commissioning: Part Commencement of Supply of Power of the Project shall be accepted by GUVNL subject to the condition that the Minimum Capacity for acceptance of first and subsequent part(s) shall be 50 MW (in case of interstate connected projects) and 10 MW (in case of STU- connected projects) (with the last part being the balance Contracted Capacity), without prejudice to the imposition of penalty, in terms of the PPA on the part which has not yet commenced supply of power. However, the SCSD will not get altered due to part-commencement of supply of power. Irrespective of dates of part or full commencement of supply of power, the PPA will remain in force for the period of 25 years from the SCSD.

3.11.2 Early Commissioning:

The Solar Power Generator shall be permitted for commencement of supply of power corresponding to full as well as part contracted capacity, even prior to the SCSD. The developer shall give fifteen (15) days advance notice to Power Procurer regarding the advance commissioning of full or part capacity. The End Procurer(s) and Intermediary Procurer shall give acceptance for availing such power within 15 days from the date of service of notice. In case Power Procurer do not give their acceptance to purchase power within the stipulated period, the developer can sell the power to the extent not accepted by the Power Procurer in the power exchanges or through bilateral arrangements.

Provided further that in such cases tariff payable by the Power Procurer shall be equal to the PPA tariff.

3.11.3 Penalty for Delay in Commissioning: The Project shall be commissioned by the Scheduled Commencement of Supply Date (SCSD). Delay in commencement of supply of power, beyond the SCSD shall involve penalties on the Successful Bidder, as detailed below:

- a) For delay in commencement of supply of power up to 6 (six) months from SCSD, encashment of Performance Bank Guarantee (PBG) on per-day basis and proportionate to the contracted capacity that has not commenced supply of power.
- b) For delay in commencement of supply of power beyond 6 (six) months from SCSD, the following shall be applicable:-
 - (i) The contracted capacity shall stand reduced to the project capacity that has commenced supply of power within the period of SCSD plus 6 (six) months. The PPA for the balance contracted capacity that has not commenced supply of power shall stand terminated.

3.12 Commencement of Supply Date (CSD) :

Commencement of Supply Date (CSD) shall be the date certified by GEDA in case the project is located in Gujarat or as certified by Representatives / Agency authorized by GUVNL in case the project is located outside of Gujarat upon successful commissioning of full capacity of the Project or the last part capacity of the Project as the case may be. Clause 4.4.2 to Clause 4.4.5 .

4.4.2 The lowest quoting bidder will be allotted its qualified project capacity and then, next higher bidder will be allotted its qualified project capacity and so on, till the total capacity is exhausted by following the rules specified in Section 3.

In case of the last selected bidder, if the balance project capacity is less than the total project capacity quoted by the bidder, then the balance capacity shall be awarded to the bidder till the total capacity is exhausted subject to a minimum allocation of 50 MW (in case of interstate connected projects) and 10 MW (in case of STU- connected projects). The allocation of additional upto 500 MW capacity through Greenshoe option shall be as per Clause 3.3.5 of RFS. Provided that, in case the partial capacity (balance capacity till the total capacity on offer is exhausted) offered to the last Bidder after completion of the e-reverse auction is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity within 7 days of issuance of Letter of Intent and the BG against EMD submitted by such Bidder shall be returned along with those of the unsuccessful Bidders

Further, in case the partial capacity offered is greater than or equal to 50% of the total quoted capacity by such Bidder, then it shall be mandatory for the last Bidder to accept such partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded after e-RA to the successful Bidders not exceeding 500 MW. In case the last Bidder refuses to accept such partial capacity offered by GUVNL, the Bank Guarantee against EMD submitted by such Bidder shall be encashed by GUVNL.

4.4.3 In case of tie, among two or more bidders (i.e. their last quoted tariff being the same) they will be considered in the chronological order of their last bid with preference to that bidder who has quoted his last bid earlier than others.

4.4.4 In the above case (as mentioned in previous Section), if the time of quote also becomes exactly same among the bidders at a tie, then the ranking among these bidders shall be done as follow:

Step – 1: Lowest rank will be given to the bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

Step – 2: Ranking will be done based on draw of lots.

4.4.5 At the end of selection process, GUVNL will have the right to decide on the issue of Letter of Intent (LOI) to the Selected Bidder or any of them based on the consideration of the price discovered. In case of Consortium being selected as Successful Bidder, the LOI may be issued to the Lead Member of the Consortium.

In all cases, GUVNL's decision regarding selection of bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

Also, GUVNL shall reserve the right to short close the capacity lower than 500 MW at its discretion, if the prices are abruptly high. Additionally, the discretion to allot or not to allot the additional upto 500 MW capacity under greenshoe option shall be vested solely with GUVNL.

GUVNL shall file a Petition before Hon'ble GERC under Section 63 of the Electricity Act 2003 for adoption of tariff and the PPA shall be signed with Successful Bidder or its SPV only after the approval of GERC and in accordance with such approval.

The Successful Bidders are required to sign PPA with GUVNL within 30 days from the date of issuance of Letter of Intent (LOI) or within 10 days from the adoption of tariff by GERC, whichever is later.

Some Bidding related Information for this Tender (Sealed Bid)

The entire bid-submission would be online on ETS (unless specified for Offline Submissions). Broad outline of submissions are as follows:

Submission of Bid-Parts

- Envelope I (Technical-Bid)
- Envelope II (Financial-Bid)

Submission of digitally signed copy of Tender Documents/ Addendum

In addition to the above, the bidders are required to submit certain documents physically offline also as per Section 3.18 A, failing which the technical bids will not be opened.

Note: The Bidder should also upload the scanned copies of all the above mentioned original documents as Bid-Annexures during Online Bid-Submission.

Special Note on Security and Transparency of Bids

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypter™ functionality, the contents of both the 'Electronic Forms' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is

connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill Electronic Forms™ for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Forms™ and the corresponding Main- Bid. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the Electronic Forms™, the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. If variation is noted between the information contained in the Electronic Forms™ and the 'Main-Bid', the contents of the Electronic Forms™ shall prevail.

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in figures will prevail.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to GUVNL in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-tendering server/ portal.

Other Instructions

For further instructions, the bidder should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**.

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register / First-Time Users, Logged-in users of Buyer organizations, and Logged- in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

Seven Critical Do's And Don'ts for Bidders

Specifically for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class 3 well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz. 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to

complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization.

3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS
4. For responding to any particular tender, the tender (.i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents.

Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.

5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, et al)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s)
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' your 'Status pertaining Overall Bid-Submission' is 'Complete'. For your record, you can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the 'Status pertaining overall Bid-Submission' is 'Complete'.

NOTE:

While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.
