In view of above, for grant of connectivity to above applications, additional system strengthening scheme beyond Ananthapuram-II PS is required. Accordingly, Transmission System for Integration of Ananthapuram-II REZ Phase-II was identified and presently under bidding.

- 4. In line with Section 15(4) of the Electricity Act, 2003, based on details furnished by M/s Anantapur II REZ Transmission Limited, CTU recommends grant of transmission license to M/s Anantapur II REZ Transmission Limited for executing the transmission scheme as mentioned in Para-1 above."
- 22. We have considered the submissions of the Petitioner, BPC, and CTUIL. The proviso to Clause 2.15.2 of the RfP provides that "if for any reason attributable to the

BPC, the said activities are not completed by the Selected Bidder within the above period of ten (10) days as mentioned in this clause, such period of 10 days shall be extended, on a day to day basis till the end of the Bid validity period". As per the above provision, the selected bidder was required to complete all the activities, including the acquisition of the SPVs, by 28.2.2025. Though LoI was issued on 19.2.2025, BPC, vide its letter dated 31.3.2025 in terms of Clause 2.15.2 of RfP, extended the date up to 31.3.2025 for completion of all activities by the successful bidder. The selected bidder furnished the Contract Performance Guarantee in favour of the Nodal Agency (CTUIL) for Rs. 128.75 crores on 28.3.2025 and acquired a hundred per cent equity-holding in the applicant company on 31.3.2025 after execution of the Share Purchase Agreement. As per clause 2.15.4 of the RfP, TSP is required to apply to the Commission for the grant of a transmission licence within five working days of the issuance of the acquisition of the SPV to the successful bidder. The successful bidder, namely Resonia Limited, acquired the SPV on 31.3.2025. Accordingly, the TSP has filed the instant Petition through e-filing for the grant of a transmission licence on 7.4.2025.

23. We note that the instant "Transmission System for Evacuation for Integration of Anantapur-II REZ- Phase-I (for 4.5 GW)" with SCOD of 31.03.2027 includes establishment of Ananthapuram-II PS and its interconnection with the Cuddapah PS (existing) and Davanagere PS (with SCOD of 09.02.2026) through 765kV D/c transmission lines. Further, CTUIL has already granted connectivity to RE generator at Ananthapuram-II PS for about 3500 MW with start date of connectivity of the RE generators as 31.03.2027 and onwards. Hence, there is no apparent mismatch amongst upstream and downstream elements of the instant transmission scheme at the planning stage.

- 24. Considering the material on record, we are prima-facie of the view that the Petitioner satisfies the conditions for the grant of inter-State transmission licence under Section 15 of the Act, read with the Transmission Licence Regulations for implementation of the transmission project as described in para 1 of this order. We, therefore, direct that a public notice in two daily digital newspapers and on the Commission's website under clause (a) of sub-section (5) of Section 15 of the Act be published to invite suggestions or objections to the grant of the aforesaid transmission licence. The objections or suggestions, if any, may be filed by any person before the Commission on or before 11.7.2025.
- 25. The Petitioner has undertaken to implement the Project in accordance with the provisions of the TS), the applicable provisions of the Electricity Act, 2003, and the Transmission Licence Regulations, as framed and notified by the Commission.
- 26. It is observed that as per Article 5.1.1 of the TSA, the TSP, at its own cost and expense, shall be responsible for designing, constructing, erecting, testing, and commissioning each element of the Project by scheduled COD in accordance with the various regulations of the Central Electricity Authority regarding Technical Standards and Grid Standards, Prudent Utility Practices and other applicable laws. Further, Article 5.4 of the TSA provides that the TSP shall ensure that the Project is designed, built and completed in a good workman-like manner using sound engineering and construction practices and using only materials and equipment that are new and of international utility-grade quality such that the useful life of the Project will be till the expiry date. Further, the design, construction, and testing of all equipment, facilities, components, and systems of the Project shall be in accordance

with Indian Standards and Codes issued by the Bureau of India Standards. It is expected that while carrying out the survey, the Petitioner has complied with the provisions of clause 2.5.7.3, clause 2.5.7.4, and clause 2.5.7.5 of the RfP. The Petitioner will comply with the provisions of the bidding documents and the TSA for the commissioning of the Project within the SCOD.

27. The Petition shall be listed for the hearing on 15.7.2025.
