**Record of Proceedings**

At the outset, the Petitioner's representative submitted that no comments had been received. However, Respondent No. 34, i.e., Tamil Nadu Power Distribution Corporation Limited (hereinafter referred to as "TNPDC"), had raised certain issues. He submitted that the issue raised by TNPDC pertains to the planning aspect of the transmission system, and since the Petitioner was not involved in the planning process, the same may appropriately be responded to by CTUIL.

2. The learned counsel for Respondent, TNPDC, submitted that CTUIL may be directed to file its reply on the issue of whether the subject transmission component is to be treated as a National Component or a Regional Component. He submitted that

the transmission line has been planned and approved as a National Component-Renewable Energy (RE) intended for the evacuation of RE power from Bidar PS, and extracts of approvals from CMETS, SRPC, and other meetings support this position, necessitating appropriate clarification. He also pointed out that in Petition No. 884/AT/2025, the Petitioner has not clearly specified whether the tariff is to be recovered from all national beneficiaries (National Component-RE) or from regional beneficiaries (Regional Component).

3. In response to the query raised by Respondent, TNPDC, the representative of the Petitioner submitted that the prayer in the Petition is in accordance with the bidding documents, which provide that charges for the project shall be recovered in terms of the extant Sharing Regulations, and that the same is consistent with the prevailing practice.

4. The representative for the Respondent, CTUIL, sought a week's time to file its reply in the matter.

5. Considering the submissions made by the Parties, the Commission permitted the CTUIL to file its reply within a week, with a copy to the other side.

6. The Petitions will be listed for the hearing on **24.2.2026**.
